In this age of the sound bite, what sort of author could be more relevant than a master of the epigram? Martial, the most influential epigrammatist of classical antiquity, was just such a virtuoso of the form, but despite his pertinence to today's culture, his work has been largely neglected in contemporary scholarship. Arguing that Martial is a major author who deserves more sustained attention, William Fitzgerald provides an insightful tour of his works, shedding new and much-needed light on the Roman poet's world—and how it might speak to our own. Writing in the late

first century CE—when the epigram was firmly embedded in the social life of the Roman elite—Martial published his poems in a series of books that were widely read and enjoyed. Exploring what it means to read such a collection of epigrams, Fitzgerald examines the paradoxical relationship between the self-enclosed epigram and the book of poems that is more than the sum of its parts. And he goes on to show how Martial, by imagining these books being displayed in shops and shipped across the empire to admiring readers, prophetically behaved like a modern author. Chock-full of epigrams itself—in both Latin and English versions—Fitzgerald’s study will delight classicists, literary scholars, and anyone who appreciates an ingenious witticism. The authors have presented and

interpreted Johannes Kepler's Latin text to English readers by putting it into the kind of clear but earnest language they suppose Kepler would have used if he had been writing today.

Providing a comprehensive and systematic commentary on the nature of overlapping Intellectual Property rights and their place in practice, this book is a major contribution to the way that IP is understood. IP rights are mostly studied in isolation, yet in practice each of the legal categories created to protect IP rights will usually only provide partial legal coverage of the broader context in which such rights are actually created, used, and enforced. Consequently, often multiple IP rights may overlap, in whole or in part, with respect to the same underlying subject matter. Some patterns, for instance, in addition to

being protected from copying under the design rights regime, may also be distinctive enough to warrant trade mark protection. Each chapter addresses a discrete pair of IP rights and is written by a specialist in that area. Facilitating an understanding of how and when those rights may be encountered in practice, each chapter is introduced by a hypothetical situation setting out the overlap discussed in the chapter. The conceptual and practical issues arising from this situation are then discussed, providing practitioners with a full understanding of the overlap. Also included is a valuable summary table setting out the legal position for each set of overlapping rights in jurisdictions across Europe, Central and South America, and Asia, and the differences between them.

With the objective of gaining a better insight into the challenges and opportunities of the livestock sub-sector in West Africa, FAO has conducted several studies and held various workshops in recent years. The outcomes of these studies and workshops conducted between 2009 and 2014 were published and distributed as hard copy reports and disseminated as on-line publications. These reports included topics such as value

chains, cross-border transhumance, animal feed resources, priority animal diseases, among others, were informative in their own right. Still, the fact that they targeted specific areas of livestock in a fragmented manner did not address the need of readers whose wish was to have a comprehensive understanding of the livestock sector in West Africa. It is in response to this demand for a comprehensive outlook of the West African Livestock sub-sector that different reports and studies have been compiled into this one book. The book has twelve chapters, covering almost all

aspects of livestock in the region. Attempts were made to enrich the information provided by including eight short case studies focusing on different aspects of the livestock sub-sector in West Africa. The book attempts to fill the gap of a need for comprehensive information on the potential, performance, challenges, and prospects of the livestock sub-sector in West Africa.

Ethnic and Vernacular Music, 1898-1960

A pandemic made us all sad, mute and tremble with fear. We locked the entire world one day and isolated ourselves from each other. This book Thoughts Unlocked - Lockdown Days Musings is a perfect riposte to a pandemic that has

rendered the humans voiceless. Writer Sreenivasan ruminates on how the pandemic made a larger impact on his life and those around him. It would give the reader an insight into how a human mind works when, one day, the world closes all its doors and puts us all under house arrest. This book tells the stories of the past, present and future. It seems autobiographical and fictitious at times. It may lack in order of things, but is written

in a language that is lucid, mild, straight and with a grand touch of humour. The thoughts the writer shares here would create in every reader a ponderous urgency to look back to the lives we had in the past. This book is a definite read and should be a great help in the freeing of our thoughts and presumptions. Shri Mataji writes that "India is a very ancient country and it has been blessed by many seers and saints who wrote

treatises about reality and guidelines on how to achieve it." This is just such a book. This book is both an introduction to Sahaja Yoga, describing the nature of the subtle reality within each of us, and a step-by-step handbook on how to be a good Sahaja Yogi, the nature of Sahaj culture, how to be a leader and how to raise children. "The knowledge of Sahaja Yoga cannot be described in a few sentences or one small book, but one

should understand that all this great work of creation and evolution is done by some great subtle organization, which is in the great divine form."

Garnering international prizes and acclaim before its publication, *Ilustrado* has been called "brilliantly conceived and stylishly executed . . . It is also ceaselessly entertaining, frequently raunchy, and effervescent with humor" (2008 Man Asian Literary Prize panel of judges). It begins with a body. On a clear day in winter, the battered corpse of Crispin Salvador is pulled from the Hudson River—taken from the world is the controversial lion of Philippine literature. Gone, too, is the only manuscript of his final book, a work meant to rescue him from obscurity by exposing the crimes of the Filipino ruling families. Miguel, his

student and only remaining friend, sets out for Manila to investigate. To understand the death, Miguel scours the life, piecing together Salvador's story through his poetry, interviews, novels, polemics, and memoirs. The result is a rich and dramatic family saga of four generations, tracing 150 years of Philippine history forged under the Spanish, the Americans, and the Filipinos themselves. Finally, we are surprised to learn that this story belongs to young Miguel as much as to his lost mentor, and we are treated to an unhindered view of a society caught between reckless decay and hopeful progress. Exuberant and wise, wildly funny and deeply moving, Ilustrado explores the hidden truths that haunt every family. It is a daring and inventive debut by a new writer of astonishing talent. From #1 New York Times bestselling author Karen Kingsbury comes the second

novel in a brand-new series about divine intervention and the trials and triumphs of life—the dramatic story of a woman desperate to find deeper meaning in her life. Growing up in a comfortable home, Mary Catherine wanted for nothing. Though she loves her wealthy parents, their lifestyle never appealed to her. Instead, Mary Catherine pursues meaning through charity work, giving away a part of herself but never giving away her heart. Mary Catherine lives in Los Angeles with her roommate, Sami, and volunteers at a local youth center with coach Tyler Ames and LA Dodger Marcus Dillinger. Despite Mary Catherine’s intention to stay single, she finds herself drawing close to Marcus, and their budding romance offers an exciting life she never dreamed of. That is, until she receives devastating news from her doctor. News that alters her future and forces her to make a rash decision.

Inspirational and moving, *Chasing Sunsets* is the story of one woman's deep longings of the soul, and the sacrifices she's willing to make in search of healing.

As her attraction to Lucas grows, Thea cooks for him, pouring her passion into irresistible merienda, hoping to reach her crush's heart through his stomach, in the hopes that he will think she's beautiful—fat and

isang nobela

From Printz Honor medal winner and National Book Award finalist Deb Caletti comes a fresh and luminous novel “about love and loss, mental illness, and taking charge of one’s own fate” (Kirkus Reviews, starred review). There are many ways to be lost. Sometimes people want to be lost.

Madison—Mads to everyone who knows her—is trying her best to escape herself during one last summer away from a mother who needs more from her than she can give, and from a future that has been decided by everyone but her.

Page 28/46

Sometimes the lost do the unimaginable, like the woman—the body—Mads collides with in the middle of the water on a traumatic morning that changes everything. And sometimes the lost are the ones left behind, like the son of the woman in the water, Billy Youngwolf Floyd. Billy is struggling to find his way through each day in the shadow of grief. His one comfort is the map he carries in his pocket, out of his favorite book *The Mixed-Up Files of Mrs. Basil E. Frankweiler*. When three lives (and one special, shared book) collide, strange things happen. Things like questions and coincidences and secrets, lots of secrets. Things like

falling in love. But can two lost people telling so many lies find their way through tragedy to each other...and to solid ground? Masters Theses in the Pure and Applied Sciences was first conceived, published, and disseminated by the Center for Information and Numerical Data Analysis and Synthesis (CINDAS) * at Purdue University in 1957, starting its coverage of theses with the academic year 1955. Beginning with Volume 13, the printing and dissemination phases of the activity were transferred to University Microfilms/Xerox of Ann Arbor, Michigan, with the thought that such an arrangement would be more

beneficial to the academic and general scientific and technical community. After five years of this joint undertaking we had concluded that it was in the interest of all concerned if the printing and distribution of the volume were handled by an international publishing house to assure improved service and broader dissemination. Hence, starting with Volume 18, Masters Theses in the Pure and Applied Sciences has been disseminated on a worldwide basis by Plenum Publishing Corporation of New York, and in the same year the coverage was broadened to include Canadian universities. All back issues can also be ordered from

Plenum. We have reported in Volume 24 (thesis year 1979) a total of 10,033 theses titles from 26 Canadian and 215 United States universities. We are sure that this broader base for theses titles reported will greatly enhance the value of this important annual reference work. While Volume 24 reports these submitted in 1979, on occasion, certain universities do report theses submitted in previous years but not reported at the time. Evanier! Aragonés! Yeates! The team behind the hit *Groo the Wanderer* series goes to Comic-Con, finding inspiration not only in their enthusiastic fans but in their fellow creators, too—especially those

working on Tarzan comics. Sergio Aragones finds a way to introduce the two characters to each other, and so Tarzan, the lord of the jungle, is set on a path that will lead him to Groo, the master of cheese dip. Also includes the return of the Rufferto backup strips! Groo and Tarzan return to Dark Horse in this exciting crossover!

Detailed information on almost all ethnic and vernacular recordings from many countries on 78rpm is provided

in this seminal work. The current state of discographical research in this wide and varied field is such that a research tool of this nature is badly needed.

Jesse Walter Fewkes and Mary Hemenway recorded Native American music as early as 1890; Bela Bartok recorded rural music in the Balkans; Erich von Hornbostel, the grand old man of ethnomusicology in Europe, recorded in Southeast Asia. More than just a discography, this work demonstrates that cultures around the world and over time have more similarities than differences. A necessity for scholars, students, archivists, and individual record collectors and dealers. The goals of this volume are many and varied: to promote thought and discussion toward

a concise definition of recorded ethnic music; to assist specialists working on individual discographical projects; to introduce users to the interconnectedness of cultures through regional music; to gather heretofore disparate pieces of information under one cover in a way that for the first time allows specialists to accurately identify all manner of recordings in many languages. The four sections of the volume work together for easy usage through cross referencing. The philosophy behind the volume was expressed by Rodney Gallop when he remarked that music, for him, was often the key to the understanding of other cultures.

Little k has an adventure with items beginning with his letter's sound, such

as kittens, kingbirds, a koala, and kids in a kindergarten. Additional features to aid comprehension include rebus icons for word recognition, a word list for review, activities for further learning, a note to parents and educators, and an introduction to the author and illustrator.

"My mother never writes. So when the mail arrived that day, I was not expecting to find a letter from her. There was no warning." Between generations of women, there are always secrets--relationships kept hidden, past events obscured, true feelings not spoken. But sometimes the truth is so primal it must be told. Now, with haunting lyricism and emotional clarity, Arlene Chai has written an exquisite novel about a family of

women who break their silence. At the center of *The Last Time I Saw Mother* is the singular story of a woman who suddenly learns she is not who she thinks she is. Caridad is a wife and mother, a native of the Philippines living in Sydney, Australia. Out of the blue Caridad's mother summons her home. Although she is not ill, Thelma needs to talk to her daughter -- to reveal a secret that has been weighing heavily on her for years. It is a tale that Caridad in no way suspects. She stopped asking questions about the past long ago; her mother's constant reluctance to answer finally subdued her curiosity. Now, it is through the words of Thelma, her aunt Emma, and her cousin Ligaya, that Caridad will learn the startling truth and attempt to

recapture what has been lost to her. Arlene Chai tells their versions of the story in their own voices, each one distinct, moving, and magical. As each woman tells her part of their family's hidden history, Caridad hears at last the unspoken stories--the joys and sorrows that her parents kept to themselves, and the never forgotten tragedy of the war years, when Japan's brutal occupation and civilian deprivations helped destroy a country and its history. *The Last Time I Saw Mother* is about mothers and daughters. It is about a cultural identity born of Spanish, Chinese, and Filipino influence. And it is about the healing power of truth. Arlene Chai is one of the most stunning new novelists in years. She takes us to a place we have never been before.

“Writing is spooky,” according to

Norman Mailer. “There is no routine of an office to keep you going, only the blank page each morning, and you never know where your words are coming from, those divine words.” In *The Spooky Art*, Mailer discusses with signature candor the rewards and trials of the writing life, and recommends the tools to navigate it. Addressing the reader in a conversational tone, he draws on the best of more than fifty years of his own criticism, advice, and detailed observations about the writer’s craft. Praise for *The Spooky Art* “The *Spooky Art* shows Mailer’s brave willingness to take on demanding forms and daunting issues. . . . He has been a thoughtful

and stylish witness to the best and worst of the American century.”—The Boston Globe “At his best—as artists should be judged—Mailer is indispensable, an American treasure. There is enough of his best in this book for it to be welcomed with gratitude.”—The Washington Post “[The Spooky Art] should nourish and inform—as well as entertain—almost any serious reader of the novel.”—Baltimore Sun “The richest book ever written about the writer’s subconscious.”—The Philadelphia Inquirer “Striking . . . entrancingly frank.”—Entertainment Weekly Praise for Norman Mailer “[Norman Mailer] loomed over American letters longer and larger

than any other writer of his generation.”—The New York Times
“A writer of the greatest and most reckless talent.”—The New Yorker
“A devastatingly alive and original creative mind.”—Life
“Mailer is fierce, courageous, and reckless and nearly everything he writes has sections of headlong brilliance.”—The New York Review of Books
“The largest mind and imagination [in modern] American literature . . . Unlike just about every American writer since Henry James, Mailer has managed to grow and become richer in wisdom with each new book.”—Chicago Tribune
“Mailer is a master of his craft. His language carries you through the

story like a leaf on a stream.”—The Cincinnati Post

The world's population is increasing; but its supply of water is not. Empires have grown and declined due to discovery and exhaustion of their water sources, and now the West is at last catching on to the fact that abundance of water can no longer be taken for granted. For the last fifty years, wars have been fought over oil; for the next fifty, they may be fought over water (in fact, some local wars already have been). Remarkably, this new book is the first to bring together the ecological, geographical, political and scientific aspects of water. Its author,
