Driving Ambition

The Signalman's Journal

I was Top Gear's script editor for 13 years and all 22 series. I basically used to check spelling and think of stupid gags about The Stig. I also got to hang around with Jeremy

*Page 12/122*

Clarkson, Richard Hammond and James May. It didn't feel like something you should get paid for. From the disastrous pilot show of 2002 to the sudden and unexpected ending in 2015, working on Top Gear was quite a rollercoaster ride.

*Page 13/122*

We crossed continents, we made space ships, we bobbed across the world's busiest shipping lane in a pick-up truck. We also got chased by an angry mob, repeatedly sparked fury in newspapers, and almost killed one of our presenters. I

*Page 14/122*

realised that I had quite a few stories to tell from behind the scenes on the show. I remembered whose daft idea it was to get a dog. I recalled the willfully stupid way in which we decorated our horrible office. I had a sudden flashback to the time a

*Page 15/122*

Bolivian drug lord threatened to kill us. I decided I should write down some of these stories. So I have. I hope you like them. And now, a quote from James May: 'Richard Porter has asked me to "write a quote" for his new book about the

*Page 16/122*

ancient history of Top Gear. But this is a ridiculous request. How can one "write a quote"? Surely, by definition, a quote must be extracted from a greater body of writing, for the purpose of illustrating or supporting a point in an unrelated

*Page 17/122*

work. I cannot "write a quote" any more than I could "film an out-take". 'Porter, like Athens, has lost his marbles.'

Six months after its American introduction in 1985, the Yugo was a punch line; within a year, it was a

*Page 18/122*

staple of late-night comedy. By 2000, NPR's Car Talk declared it "the worst car of the millennium." And for most Americans that's where the story begins and ends. Hardly. The short, unhappy life of the car, the men who built it, the

*Page 19/122*

men who imported it, and the decade that embraced and discarded it is rollicking and astounding, and one of the greatest untold business-cum-morality tales of the 1980s. Mix one rabid entrepreneur, several thousand "good" communists, a

*Page 20/122*

willing U.S. State Department, the shortsighted Detroit auto industry, and improvident bankers, shake vigorously, and you've got The Yugo: The Rise and Fall of the Worst Car in History. Brilliantly re-creating the amazing confluence of

*Page 21/122*

events that produced the Yugo,  
Yugoslav expert Jason Vuic  
uproariously tells the story of the car  
that became an international joke:  
The American CEO who happens  
upon a Yugo right when his  
company needs to find a new import

*Page 22/122*

or go under. A State Department eager to aid Yugoslavia's nonaligned communist government. Zastava Automobiles, which overhauls its factory to produce an American-ready Yugo in six months. And a hole left by Detroit in the cheap

*Page 23/122*

subcompact market that creates a race to the bottom that leaves the Yugo . . . at the bottom.

this joint Final Rule to establish a

need to address global climate change and to reduce oil consumption. EPA is finalizing greenhouse gas emissions standards under the Clean Air Act, and NHTSA is finalizing Corporate Average Fuel Economy standards

*Page 57/122*

*11-gmc-acadia-actor-blend-door-motor-actor-t3983001*

takes us back to the heady days before drug smuggling was synonymous with deadly gunplay. During this golden age of marijuana trafficking, the country ' s most prominent kingpins were a group of

comrades eschewed violence as much as they loved pleasure, and it was greed, lust, and disaster at sea that ultimately caught up with them, along with the law. In a cat-and-mouse game played out in exotic

*11-gmc-acadia-actor-blend-door-motor-actor-t3983001*

locations across the globe, the smugglers sailed through hurricanes, broke out of jail and survived encounters with armed militants in Colombia, Grenada and Lebanon. Based on years of research and interviews with

The sensational true story of Eddie Rickenbacker, America's greatest flying ace At the turn of the twentieth century two new technologies—the car and

*Page 76/122*

airplane—took the nation's imagination by storm as they burst, like comets, into American life. The brave souls that leaped into these dangerous contraptions and pushed them to unexplored extremes became new American heroes: the

*Page 77/122*

race car driver and the flying ace.  
No individual did more to create  
and intensify these raw new roles  
than the tall, gangly Eddie  
Rickenbacker, who defied death  
over and over with such courage  
and pluck that a generation of

*Page 78/122*

Americans came to know his face better than the president's. The son of poor, German-speaking Swiss immigrants in Columbus, Ohio, Rickenbacker overcame the specter of his father's violent death, a debilitating handicap, and, later,

*Page 79/122*

accusations of being a German spy, to become the American military ace of aces in World War I and a Medal of Honor recipient. He and his high-spirited, all-too-short-lived pilot comrades, created a new kind of aviation warfare, as they pushed

*Page 80/122*

their machines to the edge of destruction—and often over it—without parachutes, radios, or radar. Enduring Courage is the electrifying story of the beginning of America's love affair with speed—and how one man above all

*Page 81/122*

the rest showed a nation the way forward. No simple daredevil, he was an innovator on the racetrack, a skilled aerial dualist and squadron commander, and founder of Eastern Air Lines. Decades after his heroics against the Red Baron's Flying

*Page 82/122*

Circus, he again showed a war-weary nation what it took to survive against nearly insurmountable odds when he and seven others endured a harrowing three-week ordeal adrift without food or water in the Pacific during World War II. For the first

*Page 83/122*

time, *Enduring Courage* peels back the layers of hero to reveal the man himself. With impeccable research and a gripping narrative, John F. Ross tells the unforgettable story of a man who pushed the limits of speed, endurance and courage and

emerged as an American legend.

*Page 95/122*

years old when he enlisted as an Army chaplain during World War II. As two of his three sons faced danger and death on the battlefield, Gerecke tended to the battered bodies and souls of wounded and dying GIs outside London. At the

*Page 96/122*

war ' s end, when other soldiers were coming home, Gerecke was recruited for the most difficult engagement of his life: ministering to the twenty-one Nazis leaders awaiting trial at Nuremburg. Based on scrupulous research and first-
