Blue Latitudes

"Siblings Bob and Tom get a dog with spots. This A-level story uses decodable text to raise confidence in early readers. The book uses a combination of sight words and short-vowel words in repetition to build recognition. Original illustrations help guide readers through the text."--

In an exhilarating tale of historic adventure, the Pulitzer Prize-winning author of *Confederates in the Attic* retraces the

voyages of Captain James Cook, the Yorkshire farm boy who drew the map of the modern world Captain James Cook's three epic journeys in the 18th century were the last great voyages of discovery. His ships sailed 150,000 miles, from the Arctic to the Antarctic, from Tasmania to Oregon, from Easter Island to Siberia. When Cook set off for the Pacific in 1768, a third of the globe remained blank. By the time he died in Hawaii in 1779, the map of the world was substantially complete. Tony Horwitz vividly recounts Cook's voyages and the exotic scenes the captain encountered: tropical orgies, taboo rituals, cannibal feasts, human sacrifice. He also relives Cook's adventures by following in the captain's wake to places such as Tahiti, Savage Island, and the Great Barrier Reef to discover Cook's embattled legacy in the present day. Signing on as a working crewman aboard a replica of Cook's vessel, Horwitz experiences the thrill and terror of sailing a tall ship. He also explores Cook the man: an impoverished farmboy who broke through the barriers of his class and time to become the greatest navigator in British history. By turns harrowing and hilarious, insightful and entertaining, BLUE LATITUDES brings to life a man whose voyages helped create the 'global village' we know today.

Everyone dreams of tropical escape. But what happens when you escape for too long? Imagine spending 24 hours a day with your spouse in 31 not-so-square feet . . . for years; crossing the Pacific Ocean on two gallons of fuel; and tossing spaghetti marinara around your living room, then cleaning it up while bouncing like ice in a martini shaker.

Tightwads on the Loose tells the story of Wendy and Garth, lured to sea by the promise of adventure.

They buy a 31-foot boat that fits their budget better than it fits Garth's large frame and set sail for an open-ended voyage, never imagining they'd be gone seven years, or cover 34,000 miles at the pace of a fast walk. They live without most "necessities" and learn that teamwork and a sense of humor matter most as they face endless "character-building opportunities." They make a long-anticipated visit to the island where Garth had been shipwrecked as a teenager, only to find it had become a penal colony. An electronic catastrophe in the Solomon Islands leaves them without navigation equipment, which forces them to trade their free-wheeling lifestyle for one that seems straight out of a '60s sitcom: jobs at a U.S. Army base in the Marshall Islands. In Asia,

they dodge typhoons and ships that threaten to turn their home into kindling. Finally they endure a grueling 49-day nonstop ocean crossing. None of this prepares them for their arrival "home" to a post-9/11 America which leaves them wondering what had changed more, them or the world.

Tightwads on the Loose offers a fun read to the armchair adventurer -- or anyone afflicted with wanderlust.

This book is about the PC Patrol Craft that fought in World War II. Almost 50,000 men served on 361 of them. Even so, PCs received little acclaim. One naval historian called them 'The Forgotten Fleet'. So that the world will not forget them, the author, a former PC sailor wrote this book. He tells the

story of PCs in World War I and draws from his and his shipmates' experiences and memories. He uses old photos and drawings and from them describes what life was like for 65 men crowded aboard these small ships. He portrays the fearful times when tossed and torn by raging seas. He recounts the terrifying battles against submarines and kamikazes and when leading landing craft to the invasion beaches.

words that brought a new type of cruising sailboat to

market in the early 1970s. For years it had been

understood that sailboats were more an emotional

purchase than a rational one. Yet most companies

advertised facts and specifications, presuming that

sailboat buyers were knowledgeable enough to translate

the specifications into which boat fulfilled their dreams.

Westsail made no such presumption and became the

first company to put the facts about their boats and the

emotional appeal of sailing together in sweet harmony.

Boy, did they make a success of the concept. Over 1100

cruising sailboats were delivered in less than ten years.
