ASHRAE, founded in 1894, is a building technology society with more than

50,000 members worldwide. The Society and its members focus on building systems, energy efficiency, indoor air quality and sustainability within the industry. Through research, standards writing, publishing, and continuing education, ASHRAE shapes

Handbook of Smoke Control Engineering - ASHRAE and productivity (ASHRAE 2009; Menzies et al. 2003). Detailed descriptions of UVGI components and systems are given in Chapter 17 of the 2016 ASHRAE Handbook—HVAC Systems and Equipment. Upper-air (also commonly called upper-room) devices are installed in occupied spaces to control bioaerosols (e.g., suspended viruses,

SI A19 Ch62 - ASHRAE

The IRS published a rule change in 2008 (Notice 2008-40) that changed the percentages needed for the tax deduction. The building needs to show 10% energy and power cost savings for envelope improvements, 20% for lighting improvements, and 20% for HVAC improvements. These savings
