A longtime professor of Ethnic Studies at the University of California at Berkeley, Ronald Takaki was recognized as one of the foremost scholars of American ethnic history and diversity. When the first edition of *A Different Mirror* was published in 1993, Publishers Weekly called it “a brilliant revisionist history of America that is likely to become a classic of multicultural studies” and named it one of the ten best books of the year. Now Rebecca Stefoff, who adapted Howard Zinn’s best-selling *A People’s History of the United States* for younger readers, turns the updated 2008 edition of Takaki’s multicultural masterwork into *A Different Mirror for Young People*. Drawing on Takaki’s vast array of primary sources, and staying true to his own words whenever possible, *A Different Mirror for Young People* brings ethnic history alive through the words of people, including teenagers, who recorded their experiences in letters, diaries, and poems. Like Zinn’s *A People’s History*, Takaki’s *A Different Mirror* offers a rich and rewarding “people’s view” perspective on the American story.

The Framework for Teaching document is an evolving instrument, but the core concepts and architecture (domains, components, and elements) have remained the same.Major concepts of the Common Core State Standards are included. For example, deep conceptual understanding, the importance of student intellectual engagement, and the precise use of language have always been at the foundation of the Framework for Teaching, but are more clearly articulated in this edition.The language has been tightened to increase ease of use and accuracy in assessment.Many of the enhancements to the Framework are located in the possible examples, rather than in the rubric language or critical attributes for each level of performance.

From Adam to Us

It was the war that lasted ten thousand days. The war that inspired scores of songs. The war that sparked dozens of riots. And in this stirring chronicle, Pulitzer Prize- winning journalist Philip Caputo writes about our country’s most controversial war -- the Vietnam War -- for young readers. From the first stirrings of unrest in Vietnam under French colonial rule, to American intervention, to the battle at Hamburger Hill, to the Tet Offensive, to the fall of Saigon, 10,000 Days of Thunder explores the war that changed the lives of a generation of Americans and that still reverberates with us today. Included within 10,000 Days of Thunder are personal anecdotes from soldiers and civilians, as well as profiles and accounts of the actions of many historical luminaries, both American and Vietnamese, involved in the Vietnam War, such as Richard M. Nixon, General William C. Westmoreland, Ho Chi Minh, Joe Galloway, Dr. Martin Luther King Jr., Lyndon B. Johnson, and General Vo Nguyen Giap. Caputo also explores the rise of Communism in Vietnam, the roles that women played on the battlefield, the antiwar movement at home, the participation of Vietnamese villagers in the war, as well as the far-reaching impact of the war’s aftermath. Caputo’s dynamic narrative is highlighted by stunning photographs and key campaign and battlefield maps, making 10,000 Days of Thunder THE consummate book on the Vietnam War for kids.

Learn from the Engagement Masters Education is a battle for attention. Whether you are a teacher trying to reach a classroom full of students or a parent trying to prepare your child for the world to come, getting our audience to just listen can be a real challenge. When students have access to personalized entertainment sitting in their pockets, anything that doesn’t jump out and grab their attention right away is easily drowned out. But there is a place where even today all those modern distractions melt away--Disneyland. When you’re there, you’re not only in a different world, you’re in Walt Disney’s world. Whether you are Peter Pan flying over London in Fantasyland or a rebel fighter struggling against the First Order in Galaxy’s Edge, you are 100% engaged. Sights, sounds and even smells ensure that your brain is locked into the experience. If we can bring those techniques into our teaching, we can create engaging experiences for our students, grab their attention, and boost their learning. You’ll improve your teaching and create a place students want to visit. In this book we’ll learn from the world’s greatest engagement masters—the Disney Imagineers. Through narrative visits to attractions throughout Disneyland and Disney California Adventure, you’ll experience a visit to the park as we share memories and see how the Imagineers make it all work. We’ll be guided by Imagineering icon Marty Sklar’s Mickey’s 10 Commandments of Theme Park Design as we turn our classrooms into the most engaging places on Earth!
