Rod set out to create a new kind of owner's workshop manual--friendly, easy to understand, yet more detailed than any other manual: this book is the result, Rod stripped down an MX-5 ('Miata' USA/'Eunos' Japan) in a domestic garage using ordinary tools and, in the process, took over 1500 step-by-step photographs. The result is a superbly detailed text which passes on to the reader every detail of important jobs, including how problems can be overcome without resorting to special tools.

CONCISE CAR® the rubrics of CAR® are similar to other Cognitive Apprenticeship Methodology's: "Watch It Do It Know It."

CAR's unique power to facilitate recovery is derived by adding the ingredients of "The Way of Analogy" and "The Concept of the Singular." You might want to start by first reading Chapter 5 in "Bingo": the chair's fixed, relax and sit in it as a way to preempt any confusion about how "The Way of Analogy" is being used in "Relationship Associations." Here is the traditional (Thomas Aquinas) "Way of Analogy": Red is Red: and yet a horse is Red, with a "horsey" Redness. CAR® melds this with "The Concept of the Singular" [i.e. Remember Philosophy 101. the Universal Chair of the Greeks was the perfect chair; then came "the Particular" chair (Lounge Chairs); then came "the Singular" chair (your Dad's old Morris chair with the cigar burns on the right arm)] to get its synergism. CAR® is a "Singular Analogous Relationship Driven" Recovery modality and as such, less easily defined than experienced. CAR® methodology is already at work "within" you even before you start to read these books. You already know (you are ultimately aware) that you are "within the answer." "The 'Good News' is... you are in Recovery now!" This is proclaimed at the beginning of all three books. "The first step in the acquisition of wisdom is silence, the second listening, the third memory, the fourth practice, the fifth teaching others." Solomon Ibn Gabriol Respectfully submitted...
