Readings in high & low

A USA Today and Globe and Mail bestseller! A novel of survival, love, loss, triumph—and the sisters who changed fashion forever Antoinette and Gabrielle “Coco” Chanel know they’re destined for something better. Abandoned by their family at a young age, they’ve grown up under the guidance of nuns preparing them for simple lives as the wives of tradesmen or shopkeepers. At night, their secret stash of romantic novels and magazine cutouts beneath the floorboards are all they have to keep their dreams of the future alive. The walls of the convent can’t shield them forever, and when they’re finally of age, the Chanel sisters set out together with a fierce determination to prove themselves worthy to a society that has never accepted them. Their journey propels them out of poverty and to the stylish cafés of Moulins, the dazzling performance halls of Vichy—and to a small hat shop on the rue Cambon in Paris, where a boutique business takes hold and expands to the glamorous French resort towns. But the sisters’ lives are again thrown into turmoil when World War I breaks out, forcing them to make irrevocable choices, and they’ll have to gather the courage to fashion their own places in the world, even if apart from each other. “The Chanel Sisters explores with care the timeless need for belonging, purpose, and love, and the heart’s relentless pursuit of these despite daunting odds. Beautifully told to the last page.” —Susan Meissner, bestselling author of *The Last Year of the War*

By the end of the nineteenth century, Paris was widely acknowledged as the cultural capital of the world, the home of avant-garde music and art, symbolist literature and bohemian culture. Edinburgh, by contrast, may still be thought of as a rather staid city of lawyers and Presbyterian ministers, academics and doctors. While its great days as a centre for the European Enlightenment may have been behind it, however, late Victorian Edinburgh was becoming the location for a new set of cultural institutions, with its own avant-garde, that corresponded with a renewed Scottish national consciousness. While Morningside was never going to be Montparnasse, the period known as the Belle Epoque was a time in both French and Scottish society when there were stirrings of non-conformity, which often clashed with a still powerful establishment. And in this respect, French bourgeois society could be as resistant to change as the suburbs of Edinburgh. With travel and communication becoming ever easier, a growing number of international contacts developed that allowed such new and radical cultural ideas to flourish. In a series of linked essays, based on research into contemporary archives, documents and publications in both countries, as well as on new developments in cultural research, this book explores an unexpected dimension of Scottish history, while also revealing the Scottish contribution to French history. In a broader sense, and particularly as regards gender, it considers what is meant by 'modern' or 'radical' in this period, without imposing any single model. In so doing, it seeks not to treat Paris-Edinburgh links in isolation, or to exaggerate them, but to use them to provide a fresh perspective on the internationalism of

the Belle Epoque.

La quiebra de la ciudad popular intenta explicar por qué el mundo obrero y popular de Barcelona, capital indiscutible del sindicalismo revolucionario anarquista, mantuvo unas expectativas insurreccionales hasta finalizar los años de entreguerras. El texto examina la experiencia cotidiana del obrero en el espacio urbano en cuatro grandes campos:

segregación residencial, vivienda, movilidad y sociabilidad. Numerosos planos, gráficos explicativos e historias de vida ilustran esas experiencias cotidianas. El análisis socioespacial desarrollado abre nuevos caminos en la comprensión del mundo obrero y popular barcelonés y muestra que el espacio urbano no fue un simple receptáculo inerte de los procesos políticos. La ausencia de movilidad social y de reformas significativas en vivienda, transporte y equipamientos constituyó el contexto ideal para el mantenimiento de expectativas revolucionarias en algunas capas obreras, especialmente en las menos cualificadas. El espacio urbano, la ciudad cotidiana, se ven en este libro como la auténtica variable explicativa de los conflictos que desembocaron en la Guerra Civil. La figura del jornalero inmigrante y de las periferias proletarias son el sujeto y escenario centrales del radicalismo cenetista. El inmigrante reciente no cualificado y los barrios donde esa figura obrera era dominante fueron los protagonistas del radicalismo revolucionario, la base social y espacial más destacada que estaba detrás de las jornadas de julio de 1936. Basada en tópicos cómodamente aceptados, la figura del inmigrante anarquista radical ha estado ausente de cualquier reflexión empírica profunda. Este libro descubre su trascendencia.

Colour permeates contemporary visual and material culture and affects our senses beyond the superficial encounter by infiltrating our perceptions and memories and becoming deeply rooted in thought processes that categorise and divide along culturally constructed lines. Colour exists as a cultural as well as psycho-physical phenomenon and acquires a multitude of meanings within differing historical and cultural contexts. The contributors examine how colour becomes imbued with specific symbolic and material meanings that tint our constructions of race, gender, ideal bodies, the relationship of the self to others and of the self to technology and the built environment. By highlighting the relationship of colour across media and material culture, this volume reveals the complex interplay of cultural connotations, discursive practices and socio-psychological dynamics of colour in an international context.

"London Eyes provides paths through the city, chancing upon those stories that ultimately have the potential to change London, to see it with new eyes, casting new shadows and seeing new stories open up at many turns. This collection has at its heart a joyous fascination with the city and the texts, images and films that have contributed to our ideas about London. It was a wonderful opportunity to stumble upon some new panoramas." Film Philosophy London incessantly generates and incites cultural responses, pre-eminently in the interconnected domains of literature and film. This book demonstrates that those responses have been sustained as vital experiments and engagements in configuring the city and its inhabitants. Including essays by prominent cultural, literary and film historians this volume forms an original and incisive contribution to ongoing debates about the city's intricate cultural history and its construction through both language and image, as a crucial site of identity, desire, exile and displacement. By comparing a diversity of documents including letters by slaves, free people of colour and planters, as well as literary works, royal decrees and court cases, Catherine Reinhardt untangles the complex forces of the slave regime that shaped the collective memory of slaves and free coloureds.

The notion of "magic" is a current popular culture phenomenon. Harry Potter, the Lord of the Rings, the commercial glamour of the footballer and the pop idol surround us with their charisma, enchantment, and charm. But magic also exerts a terrifying political hold upon us: bin Laden's alleged March 28 e-mail message spoke of the attacks on America in form of "crushing its towers, disgracing its arrogance, undoing its magic." The nine scholars included in this volume consider the cultural power of magic, from early Christianity and the ancient Mediterranean to the curious film career of Buffalo Bill, focusing on topics such as Surrealism, France in the classical age, alchemy, and American fundamentalism, ranging from popular to elite magic, from theory to practice, from demonology to exoticism, from the magic of memory to the magic of the stage. As these essays show, magic defines the limit of both science and religion but as such remains indefinable.

The UNESCO Training Manual for the Protection of the Underwater Cultural Heritage in Latin America and the Caribbean

Whereas in English-speaking countries comics are for children or adults 'who should know better', in France and Belgium the form is recognized as the 'Ninth Art' and follows in the path of poetry, architecture, painting and cinema. The bande dessinée [comic strip] has its own national institutions, regularly obtains front-page coverage and has received the accolades of statesmen from De Gaulle onwards. On the way to providing a comprehensive introduction to the most francophone of cultural phenomena, this book considers national specificity as relevant to an anglophone reader, whilst exploring related issues such as text/image expression, historical precedents and sociological implication. To do so it presents and analyses priceless manuscripts, a Franco- American rodent, Nazi propaganda, a museum-piece urinal, intellectual gay porn and a prehistoric warrior who's really Zinedine Zidane.

This book, covering the entire spectrum of Arabic manuscripts, and especially the handwritten book, consists of a glossary of technical terms and a bibliography. The technical terms, collected from a variety of sources embrace a vast range of topics dealing with the making and reading (studying) of Arabic manuscripts. They are: the Arabic script, penmanship, writing materials and implements, the make-up of the codex, copying and correction, decoration and bookbinding, as well as the transmission of texts and former ownership. A similar coverage is reflected in the bibliography.

The Millennium Dome, Braveheart and Rolls Royce cars. How do cultural icons reproduce and transform a sense of national identity? How does national identity vary across time and space, how is it contested, and what has been the impact of globalization upon national identity and culture? This book examines how national identity is represented, performed, spatialized and materialized through popular culture and in everyday life. National identity is revealed to be inherent in the things we often take for granted - from landscapes and eating habits, to tourism, cinema and music. Our specific experience of car ownership and motoring can enhance a sense of belonging, whilst Hollywood blockbusters and national exhibitions provide contexts for the ongoing, and often contested, process of national identity formation. These and a wealth of other cultural forms and practices are explored, with examples drawn from Scotland, the UK as a whole, India and Mauritius. This book addresses the considerable neglect of popular cultures in recent studies of nationalism and contributes to debates on the relationship between 'high' and 'low' culture.

Robert Delaunay was one of the leading artists working in Paris in the early decades of the twentieth century, and his paintings have been admired ever since as among the earliest purely abstract works. With *Resisting Abstraction*, the first English-language study of Delaunay in more than thirty years, Gordon Hughes mounts a powerful argument that Delaunay was not only one of the earliest artists to tackle abstraction, but the only artist to present his abstraction as a response to new scientific theories of vision. The colorful, optically driven canvases that Delaunay produced, Hughes shows, set him apart from the more ethereal abstraction of contemporaries like Kandinsky, Mondrian, Kazimir Malevich, and František Kupka. In fact, Delaunay emphatically rejected the spiritual motivations and idealism of that group, rooting his work instead in contemporary science and optics. Thus he set the stage not only for the modern artists who would follow, but for the critics who celebrated them as well.

From the author of the National Book Award finalist *Black Leopard, Red Wolf* and the WINNER of the 2015 Man Booker Prize for *A Brief History of Seven Killings* "An undeniable success." — *The New York Times Book Review* A true triumph of voice and storytelling, *The Book of Night Women* rings with both profound authenticity and a distinctly contemporary energy. It is the story of Lilith, born into slavery on a Jamaican sugar plantation at the end of the eighteenth century. Even at her birth, the slave women around her recognize a dark power that they- and she-will come to both revere and fear. The Night Women, as they call themselves, have long been plotting a slave revolt, and as Lilith comes of age they see her as the key to their plans. But when she begins to understand her own feelings, desires, and identity, Lilith starts to push at the edges of what is imaginable for the life of a slave woman, and risks becoming the conspiracy's weak link. But the real revelation of the book—the secret to the stirring imagery and insistent prose—is Marlon James himself, a young writer at once breath-takingly daring and wholly in command of his craft.

He was named "Sham" for the sun, this golden-red stallion born in the Sultan of Morocco's stone stables. Upon his heel was a small white spot, the symbol of speed. But on his chest was the symbol of misfortune. Although he was swift as the desert winds, Sham's pedigree would be scorned all his life by cruel masters and owners. This is the classic story of Sham and his friend, the stable boy Agba. Their adventures take them from the sands of the Sahara to the royal courts of France, and finally to the green pastures and stately homes of England. For Sham was the renowned Godolphin Arabian, whose blood flows through the veins of almost every superior thoroughbred. Sham's speed—like his story—has become legendary.

The 1950s and 1960s were a key moment in the development of postwar France. The period was one of rapid change, derived from post-World War II economic and social modernization; yet many traditional characteristics were retained. By analyzing the eruption of the new postwar world in the context of a France that was both modern and traditional, we can see how these worlds met and interacted, and how they set the scene for the turbulent 1960s and 70s. The examination of the development of mass culture in post-war France, undertaken in this volume, offers a valuable insight into the shifts that took place. By exploring stardom from the domain of cinema and other fields, represented here by famous figures such as Brigitte Bardot, Johnny Hallyday or Jean-Luc Godard, and less conventionally treated areas of enquiry (politics [de Gaulle], literary [Françoise Sagan], and intellectual culture [Lévi-Strauss]) the reader is provided with a broad understanding of the mechanisms of popularity and success, and their cultural, social, and political roles. The picture that emerges shows that many cultural articulations remained or became identifiably "French," in spite of the American mass-culture origins of these social, economic, and cultural transformations.

Showing how in North America, the United Kingdom, Europe, Australia and the South Pacific, radio provides distinctive forms of content for the individual listener, this volume also shows how it enables ethnic and cultural groups to maintain their sense of identity. It suggests that the benefits and gratifications which radio confers remain unique.

NATIONAL BESTSELLER • "Steven Pressfield brings the battle of Thermopylae to brilliant life."—Pat Conroy At Thermopylae, a rocky mountain pass in northern Greece, the feared and admired Spartan soldiers stood three hundred strong. Theirs was a suicide mission, to hold the pass against the invading millions of the mighty Persian army. Day after bloody day they withstood the terrible onslaught, buying time for the Greeks to rally their forces. of books, articles, and book reviews concerned with French literature since 1885. Unique in its scope, thoroughness, and reliability of information, it has become an essential reference source in the study of modern French literature and culture. The bibliography is divided into three major divisions: general studies, author subjects (arranged alphabetically), and cinema. Number 59 in the series contains 12,703 entries. William J. Thompson is Associate Professor of French and Undergraduate and Interdisciplinary Programs in the College of Arts and Sciences at the University of Memphis.

The Third Republic, known as the 'belle époque', was a period of lively, articulate and surprisingly radical feminist activity in France, borne out of the contradiction between the Republican ideals of liberty, equality and fraternity and the reality of intense and systematic gender discrimination. Yet, it also was a period of intense and varied artistic production, with women disproving the critical nearconsensus that art was a masculine activity by writing, painting, performing, sculpting, and even displaying an interest in the new "seventh art" of cinema. This book explores all these facets of the period, weaving them into a complex, multi-stranded argument about the importance of this rich period of French women's history.

Ptolemy's Almagest is one of the most influential scientific works in history. A

masterpiece of technical exposition, it was the basic textbook of astronomy for more than a thousand years, and still is the main source for our knowledge of ancient astronomy. This translation, based on the standard Greek text of Heiberg, makes the work accessible to English readers in an intelligible and reliable form. It contains numerous corrections derived from medieval Arabic translations and extensive footnotes that take account of the great progress in understanding the work made in this century, due to the discovery of Babylonian records and other researches. It is designed to stand by itself as an interpretation of the original, but it will also be useful as an aid to reading the Greek text.
