Between Leadership and Mental Illness [Nassir Ghaemi] on Amazon.com. *FREE* shipping on qualifying offers. This New York Times bestseller is a myth-shattering exploration of the powerful connections between mental illness and leadership. Historians have long puzzled over the apparent mental instability of great and terrible leaders alike: Napoleon

A First-Rate Madness: Uncovering the Links Between ...

A First-Rate Madness has a fascinating premise: that in times of crisis, mentally abnormal leaders are more effective than mentally healthy ones. For various reasons, many of which are included in this book, I actually tend to agree with the author, and even if I didn't, his theory would be intriguing food for thought.
