Total cost management (TCM) is the name given by AACE International to a process for applying the skills and knowledge of cost engineering. It is

*Page 26/158*

also the first integrated process or methodology for portfolio, program and project management. AACE first introduced the concept in the 1990s and published the full presentation of the process in the "Total Cost

*Page 27/158*

Management  
Framework" in  
2006.

Total Cost

Management

(TCM) is a

systematic

approach to

managing cost

throughout the

life cycle of

any enterprise,

program,

facility,

*Page 145/158*

project,  
product or  
service. The  
TCM Framework:  
An Integrated  
Approach to  
Portfolio,  
Program and  
Project  
Management is a  
structured,  
annotated  
process map

*Page 146/158*

that for the first time explains each practice area of the cost engineering field in the context of its relationship to the other practice areas including allied

professions.

~~Aace  
International  
Total Cost  
Management  
Framework An  
...~~

Total cost management (TCM) is the name given by AACE International to a process for

applying the skills and knowledge of cost engineering. It is also the first integrated process or methodology for portfolio, program and project management. AACE first introduced

the concept in  
the 1990s and  
published the  
full  
presentation of  
the process in  
the "Total Cost  
Management  
Framework" in  
2006.
