Rapid globalization coupled with the growth of the Internet and Information Technology (IT) has led to a complete transformation in the way businesses or organizations function today. This has not only affected the management culture but has also led to an increase in competition in terms of markets and resources. Businesses have become more customer-driven and e-business is gaining popularity. Traditional means of communication/correspondence have given way to online dealings, e-mails and chats. With such a radical shift in the approach to doing business, came the need for specialized systems to handle the various departments and functions in an organization. Management Information System or MIS is an organized and well-structured system used by organizations for the collection, storage, processing and dissemination of data in the form of information that facilitates the smooth functioning of the organization. Management information systems involve three primary resources: people, technology and information or decision-making. It is in this context, a textbook on introduction to the subject of MIS is presented to the students of Management program. The book contains the syllabus from basics of the subjects going into the intricacies of the subjects. All the concepts have been explained with relevant examples and diagrams to make it interesting for the readers. An attempt is made here by the experts to assist the students by way of providing case based study material as per the curriculum with non-commercial considerations. However, it is implicit that these are exam-oriented Study Material and students are advised to attend regular class room classes in the Institute and utilize reference books available in the library for In-depth knowledge. We owe to many websites and their free contents; we would like to specially acknowledge contents of website [www.wikipedia.com](http://www.wikipedia.com) and various authors whose writings formed the basis for this book. We acknowledge our thanks to them. At the end we would like to say that there is always a room for improvement in whatever we do. We would appreciate any suggestions regarding this study material

from the readers so that the contents can be made more interesting and meaningful. Readers can email their queries and doubts to our authors on [onsjpl0ng@gmail.com](mailto:onsjpl0ng@gmail.com). We shall be glad to help you immediately. Authors: Dr. Padmakar Shahare I Dr Ajay Pethe I Dr. Mukul Burghate

Management is the science and art of getting people together to accomplish desired goals and objectives by coordinating and integrating all available resources efficiently and effectively. Management can be defined as all the activities and tasks were undertaken for the purpose of achieving an objective or goal by continuous activities like; planning, organizing, leading and controlling. Management is the combined or interchanged process of planning, decision making, organizing, leading, motivation and controlling the human resources, financial, physical, and information resources of an organization to reach its goals in an efficient and effective manner. The purpose of this study Material is to present an introduction to the subjects of MBA Sem-I. The book contains the syllabus from basics of the subjects going into the intricacies of the subjects. All the concepts have been explained with relevant examples and diagrams to make it interesting for the readers. An attempt is made here by the author to assist the students by way of providing Study Material as per the curriculum with non-commercial considerations. #### How to Set and Monitor Financial Targets in Any Organisation

In any industry, whether manufacturing or service, we have multiple departments, which function day in day out to achieve organizational goals. The functioning of these departments may or may not be interdependent, but at the end of the day they are linked together by one common thread – Accounting & Finance department. The accounting & financial aspects of each and every department are recorded and are reported to various stakeholders. There are two different types of reporting – Financial reporting for various stakeholders & Management Reporting for internal Management of an organization. Both this reporting is important and is an integral part of Accounting & reporting system of an organization. But considering the number of stakeholders involved and statutory & other regulatory requirements, Financial Reporting is a very important and critical task of an organization. It is a vital part of Corporate Governance. It is in this context, a textbook on introduction to the subject of FINANCIAL REPORTING; STATEMENTS AND ANALYSIS is presented to the students of Management program. The book contains the syllabus from basics of the subjects going into the intricacies of the subjects. All the concepts have been explained with relevant practical, numerical examples and diagrams to make it interesting for the readers. An attempt is made here by the experts to assist the students by way of providing case based study material as per the curriculum with non-commercial considerations. However, it is implicit that these are exam-oriented Study Material and students are advised to attend regular class room classes in the Institute and utilize reference books available in the library for In-depth knowledge.

We owe to many websites and their free contents; we would like to specially acknowledge contents of website [www.wikipedia.com](http://www.wikipedia.com) and various authors whose writings formed the basis for this book. Worldwide implementation of the OECD 's Global Anti-Base Erosion Rules (GloBE Rules), published in December 2021, promises to strike a powerful blow at the tax avoidance rampantly indulged in by many multinational corporations since global minimum tax rate of 15% in all countries is expected to curb shifting of profits from higher tax jurisdiction to lower tax jurisdiction or tax havens. As Inclusive Framework (IF) Member jurisdictions prepare to implement legislation, the tax law community worldwide can turn to this extraordinarily practical, self-contained book for a complete understanding of the background and attributes of the Rules. The book includes such features as the following: text of each of the Rules ' ten chapters (including all forty-nine articles) along with both summary and detailed description; explanations of the Commentary and Illustrative Examples released by the OECD in March 2022; numerous flowcharts, tables, boxes, illustrations, and figures; elaborate technical discussions amidst specific policy considerations; analysis of IF Member jurisdictions regarding key parameters with suitable recommendations; ' GloBE Rules at a Glance ' checklist encapsulating the features and application of the Rules in the form of FAQs; and implementation processes under way in ten representative jurisdictions. The various publications and releases by the OECD up to 31 May 2022 are considered and duly explained. In the struggle to curb harmful tax competition and aggressive tax planning, it is possible that the GloBE Rules will at last succeed in creating a level playing field in the realm of taxation. And given that OECD guidance and tax expert analysis may not suffice to fully comprehend the complexity of the Rules, this book will prove of enormous value among a wide array of stakeholders, including taxation authorities, tax advisors and lawyers, and academics. Also, multinational enterprises will get enough information to derive maximum benefits in terms of their preparedness, readiness, and responses to implementation of the Rules.

Written for advanced and undergraduate level students and managers within business, this text focuses on key principles of accounts - avoiding unnecessary complexity and irrelevant topics.
