History. According to the new media artist and theorist [citation needed] Maurice Benayoun, the first piece of interactive art should be the work done by Parrhasius during his art contest with Zeuxis described by Pliny, in the fifth century B.C. when Zeuxis tried to unveil the painted curtain. The work takes its meaning from Zeuxis' gesture and wouldn't exist without it.

History. The interactive whiteboard was originally envisioned by David Martin and Nancy Knowlton in 1987. Soon after, they co-founded the company SMART Technologies and introduced the world’s first SMART Board in 1991. While the original concept was to create a device that would function as a whiteboard and computer, by the time it was presented to the market the touch sensitive application had also been added (SMART Tech, 2012).
