Encyclopedia "Thank the cosmos for the bundle of star stuff named Philip Plait, who is the world's leading consumer ...

For example, I researched the history of the egg-standing legend in

Page 5/89

the United States and was able to trace it to a simple misunderstanding of a magazine article published in 1945. Other chapters detail the Coriolis effect and the big Moon illusion, why the sky is blue and why we have seasons.

Page 6/89

~~Bad Astronomy Misconceptions And Misuses~~

For skeptics, always fans of science:
The first two books in a series
devoted to "bad science," *Bad
Astronomy* by Philip Plait and *Bad
Medicine* (Wiley, \$15.95) by

Page 7/89

Christopher Wanjek, may warm even a Scrooge's heart. In short chapters, Plait tackles misperceptions about why the moon looks larger on the horizon and why stars twinkle before moving on, dismantling conspiracy kooks who

Page 8/89

doubt the moon landing and offering a top 10 list of bad science moments in movie history.

Bad Astronomy: Misconceptions

Page 14/89

and Misuses Revealed, from
Astrology to the Moon Landing
"Hoax" is a non-fiction book by the
American astronomer Phil Plait, also
known as "the Bad Astronomer".
The book was published in 2002 and
deals with various

Page 15/89

misunderstandings about space and astronomy, such as sounds being audible in space. Plait's first book received generally favorable reviews within the academic and astronomy communities and was the first volume in the Bad Science series by

Page 16/89
