The proposed
location of the
project – at the
head of the
Irrawaddy in Kachin
State – was met
with intense public
backlash from
environmentalists
and human rights
defenders who
were concerned

Page 16/85

about long-term environmental damage and the forced displacement of local communities. These fears were further compounded by the widespread belief that China ' s investment into Burma was largely exploitative, with little consideration

for transparency
and accountability.

Finding a balance
between economic
and environmental
sustainability.

Sustainability is the
backbone of
business – this has

Page 19/85

always been true and for largely obvious reasons. Any organisation which is absent of sustainability is destined to, at some point or another, fail. Typically this is not a desirable outcome for an organisation.

It is now accepted
that the
preservation of the
environment is
integral to the
protection of other
rights such as the
right to food, right
to health and the

Page 28/85

right to life. Thus, it can be said that the human right to a life of dignity is intrinsically linked to the right to a clean and healthy environment.
