BETWEEN THE WOODS AND THE WATER differs only slightly from A TIME OF GIFTS in that fewer architectural treasures are encountered and commented upon. But, like the latter, it is the beauty and quiet of the earth, the common people, an endearing cast of lovable, clueless aristocrats, and the colorful histories that surround them all, that are the stars of the show.

The first of three projected volumes, A Time of Gifts, was published in 1977, when the author was 62; the second, Between the Woods and the Water, which traces the journey from the Hungarian frontier (where the first leaves off) to the Iron Gates in Romania, came in 1982.
