(print, desktop, tablet, smartphone, and conference room display) The Big Book of Dashboards is the only book that matches great dashboards with real-world business scenarios.

Books by Steve | Data Revelations

The bulk of the book (pages 38-337) are examples of different types of dashboards. And while there is a huge amount of data here, I think I realised at this point that, because I expect dashboards to be interactive, a print format is probably not the best (at least, not for me).
