Salgaller (ISBN: 9781934899137) from Amazon's Book Store. Everyday low prices and free delivery on eligible orders.

**Biotechnology Entrepreneurship from Science to Solutions ---**

Biotechnology Entrepreneurship: From Science to Solutions fills a critical gap in the biotechnology industry. For all the resources on how to start companies and on how to manage established companies in other sectors, there is a dearth of material on unique and critical issues in starting biotechnology companies, as well as managing the transition from start-up to established company.

**Biotechnology Entrepreneurship from Science to Solutions ---**

**{(Biotechnology Entrepreneurship from Science to Solutions ---**

Biotechnology Entrepreneurship. From Science to Solutions provides a real-world introduction to starting and growing life science companies, as well as useful material for medical researchers interested in getting their technologies to as many patients as possible. Founding a company - or playing an active role (e.g., serving as scientific director or member of the scientific advisory board - translates to investing your time, energy, and (in some instances) money.

**Biotechnology entrepreneurship—where no research has ---**

Our BSc Biotechnology with Entrepreneurship course will enable you to combine science with business skills - a key driver of employability. You will learn about the science behind biotechnology while also looking at how to succeed in a career in industry.

**BSc Biotechnology with Entrepreneurship—course details ---**

Biotechnology entrepreneurship is the sum of all activities necessary to build an enterprise through the melding of both scientific and business disciplines. The entrepreneur leader is the driving force for the forward momentum of the organization.
