It does however feature a long lasting battery and a lot of storage space which has earned it a number of high reviews. The downfalls are the limited apps available and the difficulty faced when trying to operate the device one handed. The customisations are not much when compared to its competitors, but the Passport allows you make significant changes to suit each user and enhance their overall experience with the device.

A New York Times Best Illustrated Book From highly acclaimed author Jenkins and Caldecott Medal– winning illustrator Blackall comes a fascinating picture book in which four families, in four different cities, over four centuries, make the same delicious dessert: blackberry fool. This richly detailed book ingeniously shows how food, technology, and even families have changed throughout American history. In 1710, a girl and her mother in Lyme, England, prepare a blackberry fool, picking wild blackberries and beating cream from their cow with a bundle of twigs. The same dessert is prepared by an enslaved girl and her mother in 1810 in Charleston, South Carolina; by a mother and daughter in 1910 in Boston; and finally by a boy and his father in present-day San Diego. Kids and parents alike will delight in discovering the differences in daily life over the course of four centuries. Includes a recipe for blackberry fool and notes from the author and illustrator about their research.
