

Bluejackets 18th Edition 1968 U S

More than eight hundred sailors served aboard the Sterett during her hazardous and demanding duties in World War II. This is the story of those men and their beloved ship, recorded by a junior officer who served on the famous destroyer from her commissioning in 1939 to April 1943, when he was wounded at the Battle of Tulagi. Peppared with the kind of vivid, authentic details that could only be provided by a participant, the book is the saga of a gallant fighting ship that earned a Presidential Unit Citation for her part in the Third Battle of Savo Island, where she took on a battleship, cruiser, and destroyer and was the last to leave the fray. Calhoun's gripping and colorful account tells what it was like to be there during those furiously fought, close-range engagements. When published in hardcover in 1993, the book was widely praised as a good read loaded with rich and interesting details.

Their Principles and Practice

An epic achievement over one hundred years in the making... In December 1941, Japan had perhaps the greatest combination of land, sea, and air forces the world had ever seen, and she used these to conquer a huge empire in the Western Pacific and East Asia. Yet by August 1945, Japan had been beaten to her knees by the combined power of China, Great Britain, and the United States. Was this destruction inevitable? Did Japan have no chance to defeat America and her allies? Why would she think she could successfully battle the two greatest industrial powers the world had ever known—Great Britain and the United States—at the same time? Violet Lightning: A Blueprint for Japanese Victory in the Pacific, 1941 – 1942 is a sweeping narrative over a century in the making. From the first confrontation in 1895 between the United States and Japan over Hawaii; to the massive Japanese defeats at Midway and Guadalcanal in 1942; to author John Eric Vining ’s first interest in the Japanese-American conflict in the fall of 1967 by reading Carrier War in the Pacific; to the fall of 1995 when Vining first put pen to paper on this project; and finally, to 2020 ’s finished product by Page Publishing, Vining reviews a history of the acrimony between Japan and the United States in the first half of the Twentieth Century. He then builds what one reviewer calls a “ chillingly believable ” scenario for a Japanese victory in the greatest of all wars. Violet Lightning poses and answers the question: “ Could Japan really have pulled it off? ” You just might find yourself coming around to a point of view you didn ’ t believe was possible.

Destroyers At Normandy: Naval Gunfire Support At Omaha Beach [Illustrated Edition]

Excerpt from The United States Marine Corps in the World War This regiment was soon joined by the Sixth Regiment and the Sixth Machine Gun Battalion Of Marines, and the Fourth Brigade Of Marines was organized, and as one of the two Infantry brigades Of the Second Division of Regulars engaged in actual battle in no less than eight distinct operations in France, of which four were major opera tions. The French Army recognized the splendid work of the Fifth and Sixth Regiments of Marines by citing them no less than three times in Army orders for achievements in the chateau-thierry sector, in the aiane-marne (soissons) Offensive, and in the meuse-argonne (champagne). The Sixth Machine Gun Battalion was similarly cited for its work in the chateau-thierry sector and Aisne - Marne (soissons) offensive. The Fourth Brigade received a similar cita tion for its work in the Chateau - Thierry sector. Since two French Army citations are sufficient to make an organization eligible for the award of the French fourragere, the high standard Of the Marine units is evident. Information was received in January, 1920, that the War Department had accepted the award of the French fourragere in the colors of the ribbon of the Croix de Guerre for several Army organi zations and the three units of the Fourth Brigade. Within one year after the outbreak of war the Marine Corps placed about as many enlisted men in France as there were in the Marine Cor s when war was declared. During t e month of June, 1918, when the battle deaths around Hill 142, Bouresches, Belleau Wood, and Vaux, of Americans attached to the Second Division amounted to (of which at least were Marines) and the nonfatal casualties to more (of which were Marines), the legislative strength of the Marine Corps was but Officers and enlisted men; the actual strength on June 30, 1918, including reserves, was officers and enlisted men, and of this total about 300 Officers and enlisted men were in France. These latter figures include those Marines who suffered casualties in the battles of June, 1918. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. The " fascinating " #1 New York Times bestseller that awakened the world to the destruction of American Indians in the nineteenth-century West (The Wall Street Journal). First published in 1970, Bury My Heart at Wounded Knee generated shockwaves with its frank and heartbreaking depiction of the systematic annihilation of American Indian tribes across the western frontier. In this nonfiction account, Dee Brown focuses on the betrayals, battles, and massacres suffered by American Indians between 1860 and 1890. He tells of the many tribes and their renowned chiefs—from Geronimo to Red Cloud, Sitting Bull to Crazy Horse—who struggled to combat the destruction of their people and culture. Forefully written and meticulously researched, Bury My Heart at Wounded Knee inspired a generation to take a second look at how the West was won. This ebook features an illustrated biography of Dee Brown including rare photos from the author ’ s personal collection.

A Study of Race Relations and a Race Riot

This work describes riverine combat during the Vietnam War, emphasizing the operations of the U.S. Navy ’ s River Patrol Force, which conducted Operation Game Warden; the U.S. Army-Navy Mobile Riverine Force, the formation that General William Westmorsland said " saved the Mekong Delta " during the Tet Offensive of 1968; and the Vietnam Navy. An important section details the SEALORDS combined campaign, a determined effort by U.S. Navy, South Vietnamese Navy, and allied ground forces to cut enemy supply lines from Cambodia and disrupt operations at base areas deep in the delta. The author also covers details on the combat vessels, helicopters, weapons, and equipment employed in the Mekong Delta as well as the Vietnamese combatants (on both sides) and American troops who fought to secure Vietnam ’ s waterways. Special features focus on the ubiquitous river patrol boats (PBRs) and the Swift boats (PCFs), river warfare training, Vice Admiral Elmo R. Zumwalt Jr., the Black Ponies aircraft squadron, and Navy SEALs. This publication may be of interest to history scholars, veterans, students in advanced placement history classes, and military enthusiasts given the continuing impact of riverine warfare on U.S. naval and military operations in the 21st century. Includes numerous maps and illustrations. This monograph provides first-hand accounts of Destroyer Squadron 18 during this critical battle upon which so much of the success of our campaign in Europe would depend. Their experience at Omaha Beach can be looked upon as typical of most U.S. warships engaged at Normandy. On the other hand, from the author ’ s research it appears evident that this destroyer squadron, with their British counterparts, may have had a more pivotal influence on the breakout from the beachhead and the success of the subsequent campaign than was heretofore realized. Its contributions certainly provide a basis for discussion among veterans and research by historians, as well as a solid, professional account of naval action in support of the Normandy landings.
