E34 | BMW Guide

The BMW E34 is the third generation of the BMW 5 Series, which was produced from November 2, 1987 until 1996. Initially launched as a sedan in January 1988, the E34 also saw a "Touring" station wagon (estate) body style added in September 1992, a first for the 5

Series.

The truth is, the M60 is far less troublesome than BMW's later V8s, but check the valley pan for coolant leaks. That said, M50, M30, or even M20 cars are tremendously reliable. Best of all, the E34 M5 was the last hurrah for the legendary S38. Inside, look for sagging headliners, peeling door card inserts, cracked dashboards, and wood trim.

BMW resisted any temptation to change a winning formula; instead the E30 was refined in almost every detail from the E21. Fuel-injected models used electronics, there was a delightful all-new five-speed transmission, and the E21's tail-happy handling had been dialled out in favour of a fine ride/handling compromise, while the heating and ventilation were much improved.
