"Buried in the Sky is a gripping account of that fateful day in 2008 when eleven climbers lost their lives on K2. As it unravels the series of events that resulted from the unbridled ambition set loose on a dangerous mountain, it probes deeply into the lives of those courageous and unheralded professionals—the "thin-air" workhorses from Nepal and Pakistan.

"Buried in the Sky isn't just the story of the worst climbing disaster in the history of the "Savage Mountain," but an important introduction to the native

climbers from Pakistan, Nepal, and Tibet whose labors make most high-altitude expeditions possible, and whose heroic efforts keep the death tolls on K2, Everest, and other Himalayan peaks from rising even higher. The Sherpas climb off the page and carry a narrative that is as fast and as gripping as their superhuman ascents.”
