????????????? ??????????????????.....

Please tell I'd like to know can you hear me? ???Can You See????? ...  
You may be able to hear – and see – your baby's heart beat for the first time when you're about 8 weeks pregnant if you have an early ultrasound exam.. Otherwise, you'll probably first hear it with a fetal Doppler at a regular prenatal care visit. Your caregiver may be able to find it with the Doppler as early as 10 weeks, but it's more common to hear it at 12 weeks.

You've probably gotten the call. It starts with a question like, "Are you

a homeowner?" or "Can you hear me?" The point of these questions, it turns out, might be to get you to say, "Yes."

## **Can You Hear It**

We got a lot of positive feedback on our Can You Hear Like a Teenager? article, and it inspired us to take it just a little bit further..

Check your hearing with a list of tones that go from 8Hz all the way up to 22,000Hz. It's fairly common for people who are over 25 years of age to not be able to hear above 15kHz and also experience some level of hearing loss or hearing damage such as ...
