

Cell Division Study Guide Key

~~Biology Unit 5: Cell Cycle Questions and
Study Guide ...~~

Cell division consists of two phases—
nuclear division followed by cytokinesis.

Page 1/97

cell-division-study-guide-key

Nuclear division divides the genetic material in the nucleus, while cytokinesis divides the cytoplasm. There are two kinds of nuclear division—mitosis and meiosis. Mitosis divides the nucleus so that both daughter cells are genetically identical.

Chapter 12 Objectives The Key Roles of Cell Division 1. Describe the stages of Mitosis in

Page 2/97

cell-division-study-guide-key

detail. 2. Explain how cell division functions in reproduction, growth, and repair.
