

the things we use and in our modern economy Contains abundant color photos of each mineral that bring the periodic table to life
This new edition of CHEMISTRY continues to incorporate a strong molecular reasoning focus, amplified problem-solving exercises, a wide range of real-life examples and applications, and innovative technological resources. With this text's focus on molecular reasoning, readers will learn to think at the molecular level and make connections between molecular structure and macroscopic properties. The Tenth Edition has been revised throughout and now includes a reorganization of the descriptive chemistry chapters to improve the flow of topics, a new basic math skills Appendix, an updated art program with new talking labels that fully explain what is going on in the figure, and much more. Available with InfoTrac Student Collections <http://goengage.com/infotrac>.
