Consumer financial literacy education often appears as a helpful, commonsense solution to neoliberalism and the individualization of responsibility for economic risk. However, in *Financial Literacy Education: Neoliberalism, the Consumer and the Citizen* this particular literacy is argued to be both ineffective and unjust. Socially created poverty, unemployment and economic insecurity require more than individual consumer solutions; they require collective responses by engaged, critical citizens. Utilizing concepts from Marx, Foucault, Bourdieu and Baudrillard this book challenges those who claim that 'there is no alternative' to neoliberal insecurity and reduce education to a consumerist training of entrepreneurial consumer-citizens who can continually invest in themselves and the market. Through an analysis of consumer financial literacy education's present and historical supports, as well as its likely effects, this book argues that the choice before us is not financial illiteracy or financial literacy. Rather, the choice is between subjugation to the requirements of perpetual competition or overcoming alienation, insecurity and exploitation, aims the critical financial literacy education outlined at the end of this book supports. This book will appeal to those interested in understanding the conditions of our freedom in an increasingly financialized world – critical educators, philosophers and sociologists of education and financial literacy researchers.

It's Charlie's worst nightmare – she's going back to high school. Following the death of a local schoolgirl, I, Charlie Davies, once voted most likely to kill a teacher, am going undercover to find out who is dealing drugs to students. By becoming a cheerleader. Bring on the pompoms. Naturally, billionaire police officer James McKenzie is working the case too - which is kind of awkward, seeing as he and I haven't really spoken since... The Incident. These things don't add up to a fun case. That's some maths even I can do. "Seldom has a book been as timely or as necessary as *Productive Math Struggle* is today. . . One of the remarkable accomplishments of SanGiovanni, Katt, and Dykema's work lies in how they seamlessly connect the research on high-quality tasks, high expectations, identity, and equity to productive math struggle. This is perhaps their greatest contribution. The authors see productive math struggle as a critical feature of mathematics classrooms that support access, equity, and empowerment, specifically arguing that every student is 'worthy of struggle.'" From the Foreword by Matt Larson, Ph.D. Past President (2016-2018), National Council of Teachers of Mathematics Associate Superintendent for Instruction, Lincoln Public Schools, Nebraska *Struggle is hard. Productive struggle is power. All students face struggle, and they should—it is how they learn and grow. The teacher's job is not to remove struggle, but rather to value and harness it, helping students develop good habits of productive struggle. But what's missing for many educators is an action plan for how to achieve this, especially when it comes to math. Persevering through difficult challenges to reach new learning is the core of Productive Math Struggle. When left unsupported, struggle can become unproductive and demoralizing, negatively influencing students' mathematical identities. The authors guide teachers through six specific actions—including valuing, fostering, building, planning, supporting, and reflecting on struggle—to create a game plan for overcoming obstacles by sharing · Actionable steps, activities, and tools for implementation · Instructional tasks and vignettes representative of each grade level · Real-world examples showcasing*

Finding Mrs. Warnecke tells the inspiring story of Cindi Rigsbee, a three-time Teacher of the Year, and Barbara Warnecke, the first-grade teacher who had a profound and lasting impact on Cindi's life. Cindi, an insecure child who craved positive attention, started her first-grade year with a teacher who was emotionally abusive and played favorites in the classroom. Two months into the school year, her principal came into the classroom and announced that half the students were being moved to another classroom--a dank, windowless basement room, with a young and inexperienced teacher. This change turned out to be the best thing that ever happened to Cindi. Her new teacher, Mrs. Warnecke, made learning come alive for her students. She went overboard caring for each child, made her classroom "magical," and encouraged students to pursue their dreams. Although Cindi was reluctant to explore her creativity as a student, Mrs. Warnecke encouraged her to read and write poetry, which became a lifelong passion. The two kept in touch for several years but lost track of each other when Mrs. Warnecke moved out of state. Cindi spent many years trying to reconnect so she could thank Mrs. Warnecke for making such a difference in her life, but to no avail. Eventually Cindi became a teacher herself, and thirty years later she has taught more than 2,000 children and been named Teacher of the Year for her home state. She later came to realize that all those years she wasn't really trying to track down Barbara Warnecke, but rather, she was trying to "find Mrs. Warnecke" within herself. In Fall 2008 Cindi and Barbara were reunited on Good Morning America; the show's producers had tracked Barbara down and brought both women on-set for a tearful reunion. Barbara was floored at this attention--she had no idea she could have made such an impact on a former student's life. As Cindi travels around talking with new and veteran educators, she is always approached by audience members who are moved to tears and want to share the story of the "Mrs. Warnecke" in their own lives. Finding Mrs. Warnecke not only tells the story of this teacher who made a lifelong impact on her students, it illustrates the importance of the teacher/student relationship in the classroom, and offers principles for other teachers to follow to make a positive impact in their own classrooms.
