This fast-paced action novel is set in a future where the world has been almost destroyed. Like the award-winning novel *Freak the Mighty*, this is Philbrick at his very best. It's the story of an epileptic teenager nicknamed Spaz, who begins the heroic fight to bring human intelligence back to the planet. In a

Page 15/106

world where most people are plugged into brain-drain entertainment systems, Spaz is the rare human being who can see life as it really is. When he meets an old man called Ryter, he begins to learn about Earth and its past. With Ryter as his companion, Spaz sets off an unlikely quest to save his dying sister -- and in the process, perhaps the world.

Being a Good Citizen
Globalization and Global
Citizenship examines the
meaning and realities of global
citizenship as a manifestation of
recent trends in globalization. In
an interdisciplinary approach, the

Page 63/106

citizenship-in-the-world-worksheet-answers

chapters outline and analyse the most significant dimensions of global citizenship, including transnational, historical, and cultural variations in its practice; foreign and domestic policy influences; and its impact on

Page 64/106

personal identities. The contributions ask and explore questions that are of immediate relevance for today's scholars, including: How does globalization in its current form present a new set of challenges

Page 65/106

for states, non-state actors, and individual citizens? How has globalization diminished, expanded, or complicated notions of citizenship? What rights could exist outside the context of state sovereignty?

Page 66/106

How can social accountability be imagined beyond the borders of towns, cities, or states? What forms of political representational legitimacy could be productive on the global level? When is it useful, possible or desirable for

Page 67/106

individuals to identify with global political communities? Drawing together a broad range of contributors and cutting edge research the volume offers chapters that seek to reflect the full spectrum of approaches and

Page 68/106

topics, providing a valuable resource which highlights the value of an extended and thoughtful study of the idea and practice of global citizenship within a broader consideration of the processes of globalization. It

What does it feel like to walk into your school? Is it a welcoming place, where everyone feels valued? Most school improvement efforts focus on academic goals, instructional models, curriculum, and

Page 97/106

assessments. But sometimes what can make or break your learning community are the intangibles--the relationships, identity, and connections that make up its culture. Authors Fisher, Frey, and Pumpian

Page 98/106

believe that no school improvement effort will be effective unless school culture is addressed. They identify five pillars that are critical to building a culture of achievement: 1. Welcome: Imagine if all staff

Page 99/106

members in your school considered it their job to make every student, parent, and visitor feel noticed, welcomed, and valued. 2. Do no harm: Your school rules should be tools for teaching students to become the

Page 100/106

moral and ethical citizens you expect them to be. 3. Choice words: When the language students hear helps them tell a story about themselves that is one of possibility and potential, students perform in ways that

Page 101/106

are consistent with that belief. 4. It's never too late to learn: Can you push students to go beyond the minimum needed to get by, to discover what they are capable of achieving? 5. Best school in the universe: Is your

Page 102/106

school the best place to teach and learn? The best place to work? Drawing on their years of experience in the classroom, the authors explain how these pillars support good teaching and learning. In addition, they provide

Page 103/106

19 action research tools that will help you create a culture of achievement, so that your school or classroom is the best it can be. After reading this book, you'll see why culture makes the difference between a school that

Page 104/106

enables success for all students and a school that merely houses those students during the school day.
