Craig Jones, mechanic and vehicle inspection expert makes buying a car from a private seller a more safe and easy process for you. In fact, his easy-to-follow informational-instructional eBook along with his inspection tools simplifies the process making you inspect and buy any used car like a pro even if you know zero about cars. You will also get the magic bullet question to get the seller to give you what you need to know, how to use the trade price formula for negotiation including the closing window so you pay the right price and what important vehicle and seller identification checks you need to do to protect yourself before handing over your money! Do you fear buying a lemon? If yes, keep reading... What You Will Learn 1. The fact-finding questions to ask the seller when you call including the "Magic Bullet" question so you can establish if the vehicle is worth pursuing and inspecting saving you time, money and headaches 2. What to look

for when inspecting any used car using the handy printable inspection checklist included so you can discover a mechanically sound used car and do the necessary vehicle and seller identity checks to protect yourself before handing over your money and taking the key 3. How to appraise any used car using the "trade price formula" so you can establish the exact price the car is worth and how to make a realistic offer, negotiate with the seller and close the deal using the "Closing Window" so you can buy at the right price What's Inside? Answers to some of the most common questions asked by used car buyers when buying a car privately include: How do I know what type of car to buy? How do I know if the seller is telling me the truth? How do I narrow my search list to make the final product decision? How do I buy a mechanically sound vehicle? How can I be sure I won't have to spend money on after-purchase servicing or repairs? How do I know EXACTLY how much to pay? How do I negotiate the best deal? How do I protect myself and give myself peace of mind? This Proven Three Step Formula By Qualified Motor Mechanic Craig Jones Will: 1. Guide you from the very beginning of the buying process to the very end to find the right car for you... 2. Teach you how to gain an unfair advantage in negotiating the lowest price and getting the best deal... 3. Show you how to protect yourself from getting ripped off! Who This Book Is For? You Don't Know What Car To Buy Here you will get the most powerful questions to ask yourself to discover what type of vehicle to buy and identify other requirements you will need to suit your needs, wants and lifestyle. If you're buying your first car or

perhaps your car is worn out and you're looking for another vehicle to get you on the road again, then go tyre-kicking with a purpose by knowing the right vehicle to buy You Have Found A Car And Want To Purchase It But Don't Know If The Car Is A Lemon You don't want to buy a vehicle that you have to put money back into this is why Craig will give you his "Magic Bullet Question" that he asks sellers every day in his pre-purchase vehicle inspection business. You will also have a qualified motor mechanic on duty 24/7 (that's Craig) looking over your shoulder guiding you every step of the way when using your used car checklist included so you can choose a mechanically sound used car and avoid the lemons! You Have Done The Necessary Vehicle Checks But Don't Want To Pay Too Much For The Car If you are buying a car privately and it has finance owing obviously the price the seller will want to achieve is the payout figure (the amount they owe the finance company) but this is not the price you should pay. Once you have your arsenal bag full of ammunition – Facts from formula 1 and formula 2 to use, I will show you my trade price formula including giving you the exact price the car is worth, and how to negotiate with the seller so you buy at the right price! You Have Made A Buying Decision But Don't Know What Important Vehicle And Seller Identification Checks To Do Before Handing Over Your Money It's more important to do the necessary identification checks when buying privately than if you were buying certified pre-owned cars from a dealer. So, using the buyers' and seller's receipt forms included you can make sure you're buying what you think you are and from the person,

they say they are. Bottom Line Buying A Private Car eBook is designed to help consumers make a well-informed decision. You should consider what are your long-term and short-term goals? Are you planning for retirement or just for a nice new car? Once your goal is clear, you can set a practical way to achieve that goal. How much money is coming in? What are the risks and rewards with your plan? Do you or will you have student loans? It is important that providers make sure you know what your financial obligations are in relation to paying your debt. Work them into your budget every month and do what you can do pay down your student loan debt when you can. Money management is a crucial process for attaining financial success by managing money that includes expenses, investments, budgeting, banking and taxes.

It enables you to know where your money is going and also it helps you plan your budget wisely. It's a fundamental process that determines what you can do and what you can't. If you are behind, as many are, when it comes how much you are saving for retirement, get in high gear and catch up. Adding a little extra per month than you normally would to your retirement plan, can catch you up faster than you think it will. Especially, if it concerns your 401k, because your employer will match a certain percentage of your contribution. You must figure out how much revenue versus expenses you have. This requires following a strict budget and adhering to it always. If you're working on improving your personal budget, one easy way to get yourself in the mindset is to get your paycheck put directly into an investment account rather than checking or cash. This way you pay yourself first, think of this as a tax but you get it for retirement. This will help get you in the habit of saving money and not thinking of it all as disposable income. In order to be economically wise, all of your disposable income must now be considered as investment funds, only to be spent on assets that return you funds at a good rate. If you know that a budget is probably the difference between you keeping money on the side during the good times and having nothing when the bad times come knocking, then you'd do everything possible to make sure that you prepare a SMART budget. When you're honest with yourself, you'll agree that to a great extent, money is key to having peace of mind. It's easy to say God provides when you're not in need. But when you're neck-deep in debt and you don't have money to pay for this month's rent, you'll probably be singing a different tune. No matter how much you want to finance the great work your church or your favorite charitable organization is doing, you can't do that without extra money. If you aren't able to provide for your needs, how can you provide for others'? If you're ready to start successfully managing your personal finances, click and BUY NOW!
