The Performing Series takes students to a higher level of learning through applied and project-based activities that go beyond the mechanics of the software. Most textbooks begin by teaching students software skills. The Performing Series presents various business documents first, then shows students the Office 2003 skills they need to create them. This approach shows students the relevance of what they are learning as they apply technology to task.

The Internet has become so popular that it's now difficult

to get through an entire day without hearing it mentioned on TV, reading about it in the newspapers, or going online yourself. Unfortunately, there is no "Internet Users Manual." The Internet All-in-One Desk Reference For Dummies can fill that void, however, by providing one-stop, quick guidance for the tasks and tools you'll need to experience the best of the Internet. This book is intended to be a reference for all the great things (and maybe a few not-so-great things) that you may need to know when you're browsing the Internet, writing e-mail, using newsgroups, creating your own Web pages, and so on. Rather than having to buy a book on each of these Internet-

related topics, you can access them all conveniently packaged for you in one handy reference. This comprehensive book shows you how to get up and running fast so that you have more time to do the things that you really want to do. The Internet All-in-One Desk Reference For Dummies is a big book made up of several smaller books – minibooks, so to speak. Within them, you'll find easy-to-follow information on the following topics and more: Internet safety, security, and troubleshooting Composing e-mail with Outlook Express and other readers Browsing the Web with Internet Explorer or Netscape Navigator Chat and other online

communication Using FTP to transfer files Getting started with Web publishing Creating Web pages with Microsoft FrontPage 2002 Going places with AOL Shopping online Investing online The back of the book contains a special Internet Directory section that points you toward some of the best sites that the Web has to offer. The sites listed here are organized by categories such as Internet and computer help, search engines and directories, news and information, research and education, sports and leisure, arts and entertainment, and fun and free stuff.

For anyone with questions about online shopping, Preston Gralla provides an easy to use source of answers for both

computer related and online commerce related questions. **ADOBE ILLUSTRATOR CS6 REVEALED** offers you comprehensive coverage in all areas of Adobe Illustrator. Beginning with fundamental concepts and progressing to in-depth exploration of the software's full set of features, these step-by-step lessons offer you a guided tour of all the program's great features - including an illustrated tutorial on how to draw with the Pen tool that you won't find in any other book. This new edition highlights extensive coverage of important and exciting new features, including dramatic improvements to Illustrator's built-in tracing utility and a major upgrade for creating

patterns. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The perfect book for fans of serial killer thrillers and crime writers such as Peter James, Mark Billingham and Peter Robinson

What if your upstairs neighbour wished their life was more like yours? Exactly like yours? Nigel never meant for it to happen. At first, he just wanted to be Matt's friend. But when he discovers he can hear what is going on in the flat below him, his fascination with his new

neighbour drifts into obsession. Rearranging his furniture to recreate the layout of the rooms downstairs. Buying the same clothes, going through Matt's post, his things. And it would have been all right. Innocent enough. If Matt hadn't brought the girl home. That's when things started to spiral out of control ... Detective Inspector Harland has to unravel the disturbing truth, but this is a case that stretches far beyond an unfortunate friendship. Praise for Fergus McNeil 'A chilling game of cat and mouse that should

keep you awake long after bedtime. DI Harland is a welcome addition to the growing ranks of British detectives' Peter Robinson, bestselling author of the DCI Banks series 'Let's welcome Fergus McNeill to the ranks of British Crime fiction innovators; he has found a darker shade of noir' Quintin Jardine, bestselling author of the Constable Bob Skinner series 'Creepy, compelling and completely convincing' Erin Kelly, bestselling author of He Said/ She Said 'A gripping first novel' Irish Independent

The automobile industry is evolving rapidly on a worldwide basis. Manufacturers are merging, component design and manufacture are now frequently outsourced instead of being created in-house, brands are changing and the giant auto makers are expanding deeper into providing financial services to car buyers. The skyrocketing price of gas spurs developments in hybrid technology and clean diesel, as

manufacturers look for ways to improve fuel efficiency. Meanwhile, all of the biggest, most successful firms have become totally global in nature. Plunkett's Automobile Industry Almanac will be your complete guide to this immense, fascinating industry. On the car dealership side, giant, nationwide holding companies have acquired the best dealers in major markets. Even the used car business is being taken over by national chains. E-commerce is having profound effects on the car industry. Consumers use the Internet to become better informed before making a purchase. Online sites like Autobytel steer millions of car buyers toward specific dealers while the same sites deliver competing bids for cars, insurance and financing in a manner that lowers costs and

improves satisfaction among consumers. Meanwhile, auto makers are using the latest in e-commerce methods to manage their supply chains and replenish their inventories. This exciting new book (which includes a database on CD-ROM) is a complete reference tool for everything you need to know about the car, truck and specialty vehicles business, including: Automotive industry trends and market research; Mergers, acquisitions, globalization; Automobile manufacturers; Truck makers; Makers of specialty vehicles such as RVs; Automobile loans, insurance and other financial services; Dealerships; Components manufacturers; Retail auto parts stores; E-commerce ; and much, much more. You'll find a complete overview, industry analysis and market research report in one

superb, value-priced package. This book also includes statistical tables, an automobile industry glossary, industry contacts and thorough indexes. The corporate profile section of the book includes our proprietary, in-depth profiles of the 400 leading companies in all facets of the automobile industry. Purchasers may also receive a free copy of the company profiles database on CD-ROM.
