"Labics, based in Rome, is a leader among Italy's up-and-coming architecture firms and has gained great international acclaim for submissions to competitions and a number of realized projects. This first-ever monograph on Labic's fast growing, impressive body of work features some twenty of their designs, representing the entire range of the firm's achievements. The selection comprises housing and office buildings, museums and cultural centers, schools, public spaces, and subway stations, located in Bosnia and Herzegovina, Finland, Iran, Italy, Saudi Arabia, Switzerland, and the UK. All are documented with atmospheric photographs and a wealth of plans and diagrams to illustrate concept and many details of each project. Structure, in a variety of notions of the term, is guiding Labics' approach. Consequently, the book is arranged in five chapters exploring geometric, bearing, circulation, public space, and urban and territorial structures in topical essays. This provides the frame for the featured projects, all of which exemplify the importance of the respective type of structure for Labics' work". (éditeur).

Relationships fall apart, marriages fail, couples break up - it happens to us all. Time corrodes passion and the routines of daily life kill the excitement that surrounds the emotion of the first encounter. The difficulty of uniting sexual pleasure with love, which Freud considered to be the most common neurosis in any love life, has become emblematic of a truth that seems undeniable: desire is destined to die if its object is not constantly renewed, if we do not change partner, if it is closed for too long in the restrictive chamber of the same bond. And yet what happens to these bonds when one of the two partners betrays the other, when the promise fails, when there is another emotional experience cloaked in secrecy and deceit? What happens if the traitor then begs forgiveness? Are they asking to be loved again and, having declared that it is not like it used to be, now want everything to go back to how it was? Should we make fun of lovers

in their attempts to make love last? Or should we try to face up to the experience of betrayal, with the offence caused by the person we love most? Should we not perhaps attempt to praise forgiveness in love?

The Island of Capri, August 1939. Italy in the grip of Fascism, the Second World War looming. At a dazzling party under the stars mingling aristocrats, Nazi officers and American millionaires, the writer, ladies' man and Fascist loose cannon, Curzio Malaparte (1898-1957) – at that time internationally renowned – is accosted by Mussolini's secret police: someone has accused him of murder, the killing of a young English girl, a poet, who had mysteriously fallen from a cliff a few years before – a fall that actually did happen. Malaparte decides to go on the run: helped by a few trusted friends (a spendthrift prince, a Camorra man, an eccentric painter and his inseparable dog Febo) he finds himself embroiled in an impossible investigation. Who's trying to frame him? Could it be that SS officer shadowed by his bloodthirsty Doberman? And what has the terrible (and true) secret hidden in Adolf Hitler's past to do with the plot against him? Struggling to stay a step ahead of the nightmare that's bearing down on him, the writer is forced to live by his wits, depending on a charming girl with unsuspected talents and the providential assistance of an American journalist, the perfect gentleman, destined to head US military intelligence in Europe. The setting: Capri's landscapes and the house Malaparte is building atop one of the island's most spectacular cliffs. All the while, champagne corks pop, the band plays on, and Europe's high society drifts helplessly to its doom. But Malaparte won't play that game: no passive victim, he's determined to save his skin, like his mind, still painfully scarred by a war hero's wounds from over two decades before. Yet that's by no means all there is to it. Readers will soon find themselves up against far more than a mere literary fiction: the tale Malaparte is telling covers his entire past life; more than just a novel, he's responding to the challenge of a lifetime. Only at the very end shall we know if he has lived up to it, or failed. Launching Monaldi & Sorti's new masterwork. A FIRST IN ITALY, A FIRST WORLDWIDE

Winner of the 2016 Lambda Literary Award for Bisexual Fiction “ I read The Life and Death of Sophie Stark with my heart in my mouth. Not only a dissection of genius and the havoc it can wreak, but also a thunderously good story. ” —Emma Donoghue, New York Times bestselling author of Room “ This novel is perceptive, subtle, funny and lingers in unexpected ways. The analysis of a woman who puts her art above all else is equal parts inspiration and warning story. Anna North makes prose look easy. ” —Lena Dunham Gripping and provocative, The Life and Death of Sophie Stark is a haunting story of fame, love, and legacy told through the propulsive rise of an iconoclastic artist. Sophie Stark begins her filmmaking career by creating a documentary about her obsession, Daniel, a college basketball star. But when she becomes too

invasive, she finds herself the victim of a cruel retribution. The humiliation doesn't stop her. Visionary and unapologetic, Sophie begins to use stories from the lives of those around her to create movies, and as she gains critical recognition and acclaim, she risks betraying the one she loves most. Told in a chorus of voices belonging to those who knew Sophie best, *The Life and Death of Sophie Stark* is an intimate portrait of an elusive woman whose monumental talent and relentless pursuit of truth reveal the cost of producing great art. It is "not only a dissection of genius and the havoc it can wreak, but also a thunderously good story" (Emma Donoghue).

In 60 B.C., ten-year-old Guiamo Durmius Stolo, an exceptionally gifted Roman orphan, is abandoned in Gaul . Left to fend for himself, Guiamo is set onto a path of legend. Recognized by the gods as having world-changing talents, he is given a weapon that changes his destiny and the world's forever. Combining legitimate legends with actual historical events, Marshall Best weaves an epic story that portrays the ancient world as it might have been, a world which the ancient historians recorded as fact; a time when gods ruled the earth and strange creatures dominated the land. It is the era of civilized conquerors exploring distant and primitive new lands. Scant recordings left to us today only touch on the fringe of the fantastic and brutal reality that existed in those distant lands of the west. Into this age, young Guiamo enters the world stage as the great game-changer, and by his hand the gods and beasts become destined to disappear into myth and legend.

This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

What do Eastern Europe's booming sex trade, America's subprime mortgage lending scandal, China ' s fake goods industry, and celebrity philanthropy in Africa have in common? With biopirates trolling the blood industry, fish-farming bandits ravaging the high seas, pornography developing virtually in Second Life, and games like World of Warcraft spawning online sweatshops, how are rogue industries transmuting into global empires? And will the entire system be transformed by the advent of sharia economics? With the precision of an economist and the narrative deftness of a storyteller, syndicated journalist Loretta Napoleoni examines how the world is being reshaped by dark economic forces, creating victims out of millions of ordinary people whose lives have become trapped inside a fantasy world of consumerism. Napoleoni reveals the architecture of our world, and in doing so provides fresh insight into many of the most insoluble problems of our era.
