MATHEMATICS CURRICULUM ...

The concepts of
probability and statistics
covered in Algebra II

build on students' previous work in Algebra 2 is the third math course in high school and will guide you through ... and logarithmic expressions, sequences and series, probability and trigonometry..

Common Core Algebra II. In this course students will learn about a variety of advanced topics in algebra. Students will expand their understanding about functions by learning about polynomial, logarithmic, and trigonometric functions. These new functions along

with linear, quadratic, and exponential, will be used to model a variety of problems, including compound interest, complex numbers, growth and decay, projectile motion, and periodic phenomena.
