The Math Curriculum for Gifted

Students series provides gifted and advanced learners with challenging activities to extend their mathematical thinking. Developed by the Center for Gifted Education at William & Mary, the lessons, activities, and extensions in each book are aligned to national

standards and are designed to provide high-ability learners advancement beyond the general curriculum. In Math Curriculum for Gifted Students (Grade 6), the 21 lessons cover mathematics content for grade 6 and are divided into five sections: ratios

and proportional relationships, the number system, expressions and equations, geometry, and statistics and probability. Each lesson includes a teacher page that outlines the Common Core State Standards and mathematical practices covered, estimated time, key

terms, materials, and objectives; a challenging activity to allow students to explore the concepts in depth; practice problems; and an assessment similar to CCSS-based grade-level standardized assessments. Ideal for gifted classrooms or gifted pull-out

groups, lessons are easy to implement and feature engaging above-level student activities. Optional student workbooks, which feature ample room for student responses, are also available in sets of 5.
