In this study, Benjamin Zachariah questions the tendency to regard nationalism as a necessary, inevitable and natural basis upon which to organise the world. In doing so, he embarks on a series of reflections on a longstanding project in Indian historiography which has until today not reached successful resolution: that of "decentring" the nation as the central focus of history-writing in and about India. This outstanding collection presents essays held together with one common thread: a concern with writing histories of India that cannot be subsumed within a bland and obligatory history of Indian nationalism, and a concern with not writing histories of nationalism while writing histories of absolutely anything or everything. Claiming to speak from the perspective of internationalism and celebrating the rootless cosmopolitanism of the merely human, Benjamin Zachariah urges historians to begin the completion of this incomplete yet necessary "decentring" project by placing their own histories, politics, and "interests" before a readership and leaving these open for scrutiny and comment.

Davey encounters some friendly spirits, too - but they urge him to try to make it back to his own time,

From the aftermath of a death emerges this pioneering memoir of a daughter's difficult love for a flawed, passionate, larger-than-life father. *If I Had to Tell It Again* is a tapestry of conflicting memories of clinical depression, intense togetherness, mourning, healing, and the shattering of spaces between childhood and adulthood. Charting an emotional minefield with delicacy and honesty, this is a haunting story about the sort of suffering that only families can inflict and endure

'In those terrible days of the lockdown during the pandemic, we were all waiting. We were waiting for things to be all right. And one day, they will indeed be all right. But the dead will never come back. The businesses that have closed and will not reopen; the dreams dashed; the families and relationships that could not withstand the strain. This is why it is important to note down all the changes in our lives. Write them down in a journal. When we do that, we are recording our own history.' - Drawing as a way of keeping a diary, writing down thoughts in a journal as a way of maintaining a historical record - in watercolours and also in words. These were resources that Amitava Kumar had been using even before the pandemic arrived. But the task gained urgency just when he felt most isolated and afraid. *The Blue Book* is a

writer's artistic response to our present world: one that has bestowed upon us countless deaths from a virus, a flood of fake news, but also love in the face of loss, travels through diverse landscapes, and - if we care to notice - visions of blazing beauty. From one of the acclaimed and accomplished authors of our time, this writer's journal is a panoramic portrait of the experience, both individual and collective, of the pandemic. - 'To mull over a beautiful line while looking upon a beautiful painting is the sublime pleasure offered by Amitava Kumar's The Blue Book. This painted diary is a collage of the personal and the political, of terrifying news, the fleeting seasons, everyday pleasures, precious conversations, families and friendships-and on every page, the solace of art.' -- KIRAN DESAI 'A lovely homage to--and extension of--the tradition of writer-artists such as John Berger.' -- GEOFF DYER 'It's not good to read another person's diary. But Amitava Kumar makes the experience so intimate in The Blue Book that you don't feel guilty. You feel like it is your own.' -- GULZAR

The nationwide lockdown in 2020 to curb the spread of Covid-19 left millions of migrant labourers without jobs, food and shelter. Desperate and helpless, most took to the road, embarking on the long, often fatal, journey home. Ritesh, Ashish, Ram Babu, Sonu, Krishna, Sandeep and Mukesh-migrants from

Bihar-undertook a similar journey on their bicycles that lasted for seven days and seven nights. Their harrowing trip from Ghaziabad, Uttar Pradesh, to their hometown of Saharsa as they braved police lathis and insults, and battled hunger, exhaustion and fear, was documented by National Award-winning filmmaker Vinod Kapri. 1232 km is a story of the extraordinary courage of seven men in the face of tremendous odds.

In July 1971, US National Security Advisor, Henry Kissinger, made a secret visit to China to meet top Chinese leaders. This inaugurated a new phase not just in US-China relations but in contemporary history. That visit and the subsequent US-China relationship, including the US decision to invest in China's economic rise and admit it into the WTO, combined to firm up the foundations of China's rise as a world power. For more than four decades, the leadership of the two countries had a secretive pact, which worked well to each other's benefit. The US helped power China's economic growth in the hope that Beijing would turn a new political leaf and adopt Western practices (e.g. democracy). China grew economically and militarily, used its financial prowess to spread its influence across continents, as four generations of Chinese leaders built their nation at the expense of the US. Half a century after Kissinger's historic visit, the US and China are today engaged in a trade war bordering on a new Cold War. Washington is not openly talking about 'de-coupling' from China, which has begun to challenge its global dominance, but it might very well be. China has already established itself as a dominant power across Eurasia. More worryingly, China is militarily and economically threatening its neighbours, including Japan, Korea, Vietnam, Taiwan, Australia, Philippines, Indonesia and India. This collection of critical essays examines the impact, consequences and legacy of Kissinger's first, door-opening visit to China and how it has shaped world order.

Pocolim is a little village somewhere - or nowhere - in Goa. It is home to Ferdie, the postman, who sets out to find his long-lost love, Millie. The next in Alan Axelrod's engaging and popular CEO series

spotlights a perfect subject: Napoleon, the brilliant military

strategist who also laid the administrative and judicial foundations for much of Western Europe. Axelrod looks at this much-studied figure in a new way, exploring six areas that constitute the core of what made Napoleon a great leader: Audacity, Vision, Empathy, Strategy, Logistics, and Tactics. Within these areas Axelrod formulates approximately 60 lessons framed in military analogies, valuable for anyone who aspires to leadership, whether in the boardroom or the Oval Office.

From one of the most important economic thinkers of our time, a brilliant and far-seeing analysis of the current populist backlash against globalization. Raghuram Rajan, distinguished University of Chicago professor, former IMF chief economist, head of India's central bank, and author of the 2010 FT-Goldman-Sachs Book of the Year Fault Lines, has an unparalleled vantage point onto the social and economic consequences of globalization and their ultimate effect on our politics. In *The Third Pillar* he offers up a magnificent big-picture framework for understanding how these three forces--the state, markets, and our communities--interact, why things begin to break down, and how we can find our way back to a more secure and stable plane. The "third pillar" of the title is the community we live in. Economists all too often understand their field as the relationship between markets and the state, and they leave squishy social issues for other people. That's not just myopic, Rajan argues; it's dangerous. All economics is actually socioeconomics - all markets are embedded in a web of human relations, values and norms. As he shows, throughout history, technological phase shifts have ripped the market out of those old webs and led to violent backlashes, and to what we now call populism. Eventually, a

new equilibrium is reached, but it can be ugly and messy, especially if done wrong. Right now, we're doing it wrong. As markets scale up, the state scales up with it, concentrating economic and political power in flourishing central hubs and leaving the periphery to decompose, figuratively and even literally. Instead, Rajan offers a way to rethink the relationship between the market and civil society and argues for a return to strengthening and empowering local communities as an antidote to growing despair and unrest. Rajan is not a doctrinaire conservative, so his ultimate argument that decision-making has to be devolved to the grass roots or our democracy will continue to wither, is sure to be provocative. But even setting aside its solutions, *The Third Pillar* is a masterpiece of explication, a book that will be a classic of its kind for its offering of a wise, authoritative and humane explanation of the forces that have wrought such a sea change in our lives.
