"Consuming Ocean Island tells the story of the land and people of Banaba, a small Pacific island, which, from 1900 to 1980, was heavily mined for phosphate, an essential ingredient in fertilizer. As mining stripped away the island's surface, the land was rendered uninhabitable, and the indigenous Banabans were relocated to Rabi Island in Fiji.

Katerina Martina Teaiwa 's ambitious, personal, and poignant Consuming Ocean Island: Stories of People and Phosphate from Banaba takes up one of the Pacific 's consummate colonial tragedies—Australian John Arundel 's discovery of phosphate-rich rock guano on the island and the subsequent mining by the British Phosphate Company (BPC). The BPC 's mining wrecked Banaba, which forced the island 's inhabitants into an ongoing exile in Fiji after World War II.

ISBN 978-0-253-01452-8. Since the end of 1945, the indigenous people of Ocean Island, the Banabans, have lived on Rabi Island in Fiji. They were resettled there at the end of World War Two in order that phosphate miners could have a free hand to mine, and largely destroy, their home island. In December 1945, 1005 people arrived at Rabi to settle; 703 Banabans, 300 Gilbertese (I-Kiribati) from other islands in the Gilbert Group and two Ellice Islanders (Tuvaluans).
