

Consution Book 1 Of The Legacy Fleet Series

A prominent lawyer and legal scholar describes her vision of an evolving Constitution, examining current legal issues that range from health care to gun control. Pamela S. Karlan is a unique figure in American law. A professor at Stanford Law School and former counsel for the NAACP, she has argued seven cases at the Supreme Court and worked on dozens more as a clerk for Justice Harry Blackmun. In her first book written for a general audience, she examines what happens in American courtrooms--especially the Supreme Court--and what it means for our everyday lives and to our national commitments to democracy, justice, and fairness. Through an exploration of current hot-button legal issues--from voting rights to the death penalty, health care, same-sex marriage, invasive high-tech searches, and gun control--Karlan makes a sophisticated and resonant case for her vision of the Constitution. At the heart of that vision is the conviction that the Constitution is an evolving document that enables government to solve novel problems and expand the sphere of human freedom. As skeptics charge congressional overreach on such issues as the Affordable Care Act and even voting rights, Karlan pushes back. On individual rights in particular, she believes the Constitution allows Congress to enforce the substance of its amendments. And she calls out the Roberts Court for its disdain for the other branches of government and for its alignment with a conservative agenda.

Publisher Description

Chief Justice John Marshall argued that a constitution "requires that only its great outlines

should be marked [and] its important objects designated." Ours is "intended to endure for ages to come, and consequently, to be adapted to the various crises of human affairs." In recent years, Marshall's great truths have been challenged by proponents of originalism and strict construction. Such legal thinkers as Supreme Court Justice Antonin Scalia argue that the Constitution must be construed and applied as it was when the Framers wrote it. In *Keeping Faith with the Constitution*, three legal authorities make the case for Marshall's vision. They describe their approach as "constitutional fidelity"--not to how the Framers would have applied the Constitution, but to the text and principles of the Constitution itself. The original understanding of the text is one source of interpretation, but not the only one; to preserve the meaning and authority of the document, to keep it vital, applications of the Constitution must be shaped by precedent, historical experience, practical consequence, and societal change. The authors range across the history of constitutional interpretation to show how this approach has been the source of our greatest advances, from *Brown v. Board of Education* to the New Deal, from the *Miranda* decision to the expansion of women's rights. They delve into the complexities of voting rights, the malapportionment of legislative districts, speech freedoms, civil liberties and the War on Terror, and the evolution of checks and balances. The Constitution's framers could never have imagined DNA, global warming, or even women's equality. Yet these and many more realities shape our lives and outlook. Our Constitution will remain vital into our changing future, the authors write, if judges remain true to this rich tradition of adaptation and fidelity. Arming Americans to defend the truth from today ' s war on facts Disinformation. Trolling.

Conspiracies. Social media pile-ons. Campus intolerance. On the surface, these recent additions to our daily vocabulary appear to have little in common. But together, they are driving an epistemic crisis: a multi-front challenge to America's ability to distinguish fact from fiction and elevate truth above falsehood. In 2016 Russian trolls and bots nearly drowned the truth in a flood of fake news and conspiracy theories, and Donald Trump and his troll armies continued to do the same. Social media companies struggled to keep up with a flood of falsehoods, and too often didn't even seem to try. Experts and some public officials began wondering if society was losing its grip on truth itself. Meanwhile, another new phenomenon appeared: "cancel culture." At the push of a button, those armed with a cellphone could gang up by the thousands on anyone who ran afoul of their sanctimony. In this pathbreaking book, Jonathan Rauch reaches back to the parallel eighteenth-century developments of liberal democracy and science to explain what he calls the "Constitution of Knowledge"—our social system for turning disagreement into truth. By explicating the Constitution of Knowledge and probing the war on reality, Rauch arms defenders of truth with a clearer understanding of what they must protect, why they must do—and how they can do it. His book is a sweeping and readable description of how every American can help defend objective truth and free inquiry from threats as far away as Russia and as close as the cellphone.

We repelled the Swarm, for now. But they won't stop: they're inhuman. They have no inhibitions. No conscience. And no mercy. But from the crucible of battle has risen an unlikely hero. Captain Timothy Granger, at the helm of another time-tested battleship, will take the fight to the enemy. He'll discover their secrets. Find their homeworld. Destroy it before they destroy ours. He will save us all. He must. Or we'll die. WARRIOR

Originalism holds that the U.S. Constitution should be interpreted according to its meaning at the time it was enacted. In their innovative defense of originalism, John McGinnis and Michael Rappaport maintain that the text of the Constitution should be adhered to by the Supreme Court because it was enacted by supermajorities--both its original enactment under Article VII and subsequent Amendments under Article V. A text approved by supermajorities has special

value in a democracy because it has unusually wide support and thus tends to maximize the welfare of the greatest number. The authors recognize and respond to many possible objections. Does originalism perpetuate the dead hand of the past? How can originalism be justified, given the exclusion of African Americans and women from the Constitution and many of its subsequent Amendments? What is originalism's place in interpretation, after two hundred years of non-originalist precedent? A fascinating counterfactual they pose is this: had the Supreme Court not interpreted the Constitution so freely, perhaps the nation would have resorted to the Article V amendment process more often and with greater effect. Their book will be an important contribution to the literature on originalism, now the most prominent theory of constitutional interpretation.

If the confusion following the last presidential election is any indication, the average citizen knows precious little about the democratic system and the laws that affect their daily lives. —The Everything American Government Book

unravels the complexities of our democracy and provides readers with the knowledge necessary to make the right decisions and take an active role in the management of their country. From the roots of American government and the challenges that have helped shape it over the years to its current structure and systems, this thoroughly researched work is ideal for anyone brushing up on civics, as well as students of all ages. Readers learn about: The personalities and events that gave rise to our current system The real significance of the Bill of Rights and the Constitution The functions of each branch of government and how they work together Private sector's influence on public policy and decision-making Ways to get involved and make a difference Specially designed to inform and empower the average citizen during this critical election year, *The Everything American Government Book* provides the keys to understanding the ins and outs of the most powerful democracy in the world. Written for university political science classes, this book begins with early Texas history; it includes discussions of

immigration, migration, the constitutions, political culture, and people of Texas. The final part of the book discusses the three Branches of Texas Government.

The Constitution of the United States

A Non-Boring Guide to How Our Democracy is Supposed to Work

A Defense of Truth

A reader-friendly explanation of the need to restore limited government and other American founding values.

This informative book gives readers a look into the Constitution and the Bill of Rights. Readers will learn about the three branches of government--executive, legislative, and judicial--as well as the way each of those branches works to keep order and the various aspects including Congress, the Supreme Court, the House of Representatives and the Senate. Featuring detailed images, stunning facts, and supportive text, this book will have readers interested, engaged, and eager to learn more about the development of the Constitution. Other featured topics include the Federalist Papers, "checks and balances", the Preamble, vetoes, and impeachment. This book features a helpful table of contents and glossary to aid readers in learning all they can about this important part of U.S. history.

Rare-book expert Peter Fallon and his girlfriend, Evangeline, the main characters from Back Bay and

Harvard Yard, are back for another treasure hunt through time. They have learned of an early, annotated draft of the Constitution, stolen and smuggled out of Philadelphia. The draft's marginal notes spell out, in shocking detail, the Founders' unequivocal intentions---the unmistakable meaning of the Bill of Rights. Peddled and purloined, trafficked and concealed for over two centuries, the lost Constitution could forever change America's history---and its future. Moreover, Congress is already at war, fighting tooth and claw over the eternally contentious Bill of Rights. When word gets out of the lost draft's existence, it launches a frenzied search, as both sides of the partisan machine believe it will reinforce their arguments. While battling politicians from both sides of the debate, Peter and Evangeline must get to the document first, because they know that if the wrong people find it, they will burn it, stripping the nation of its constitutional moorings. The search takes Peter and Evangeline into the rich history of America and New England, from Shay's Rebellion to the birth of the American industrial revolution to the march of the legendary 20th Maine in the Civil War. Past and present play off one another as the search for the draft heats up. It finally boils over on the first night of the World Series, at that Mecca of New England, Boston's fabled Fenway Park, and the truth is finally revealed.... At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Do you know what the Constitution ACTUALLY says? This witty and highly relevant annotation of our founding document is the go-to guide to how our government really works (or is supposed to work). Written by political savant and entertainment veteran, Ben Sheehan, and vetted for accuracy by experts in the field of constitutional law, *OMG WTF Does the Constitution Actually Say?* is an entertaining and accessible guide that explains what the Constitution actually lays out. With clear notes and graphics on everything from presidential powers to Supreme Court nominations to hidden loopholes, Sheehan walks us through the entire Constitution from its preamble to its final amendment (with a bonus section on the Declaration of

Independence). Besides putting the Constitution in modern-day English so that it can be understood, *OMG WTF Does the Constitution Actually Say?* gives readers all of the info they need to be effective voters and citizens in the November elections and beyond.

OMG WTF Does the Constitution Actually Say?

Constitution

A Peter Fallon Novel

History comes alive in this illustrated guide to the Constitution and all 27 Amendments. The Constitution has been in the news a lot recently. But most of us could probably use a refresher on this founding document of America--you can probably name the first and second amendments, but what about the 11th, or the 22nd? And what does all of that formal political language actually mean for us today? The U.S. Constitution for Everyone answers these questions and more, like: - How does impeachment work, anyway? - How long is a Senator's term? - What is covered by "freedom of speech"? - What are "emoluments"? - How exactly does a bill become a law? This book makes understanding your rights easy with clear explanations of the complete text of the U.S.

Constitution, as well as all 27 Amendments, alongside fascinating historical facts and explanations. A must-read for students, curious citizens, and everyone who'd like to know more about the supreme laws of our nation.

FROM MILLION-COPY BESTSELLER JASPER T. SCOTT *The Sequel to First Encounter. THE FORERUNNERS LEFT EARTH IN SEARCH OF INTELLIGENT LIFE, AND THEY FOUND IT.* Captain Clayton Cross and his crew encountered the Kyra, an advanced race of avian carnivores. They fled this first encounter, but the Kyra beat them back to Earth by almost a century. Earth lost the war in just a few weeks. Our cities burned, and billions died. After we surrendered, the Kyra helped us to rebuild, but on their terms, confining us to city centers and building high walls to keep us in. The Kyra indoctrinate our children and encourage them to ascend through a virus that turns them into Chimeras. These hybrids are sent to fight the Kyra's enemy, but only half of all ascensions are successful. The failures become Dregs, left to wander the Wastes as mindless predators. Determined to oppose the Kyra any way he can, Clayton is working with the human resistance, and now they have a plan that will either put an end to the occupation, or to us...

Introduces Constitution Day, a new holiday on September 17, designed to celebrate the signing of the Constitution in 1787, and discusses its origins and meaning, ways to celebrate it, American citizenship, and other patriotic holidays.

"A must-read for this era." —Jake Tapper, CNN Anchor and Chief Washington Correspondent An insightful, urgent, and perennially relevant handbook that lays out in common sense language how the United States Constitution works, and how its protections are eroding before our eyes—essential reading for anyone who wants to understand and parse the constantly breaking news about the backbone of American government. The Constitution is the most significant document in America. But do you fully understand what this valuable document means to you? In *How to Read the Constitution--and Why*, legal expert and educator Kimberly Wehle spells out in clear, simple, and common sense terms what is in the Constitution, and most importantly, what it means. In compelling terms and including text from the United States Constitution, she describes how the Constitution 's protections are eroding—not only in express terms but by virtue of the many legal and social norms that no longer shore up its legitimacy—and why every American needs to heed to

this “ red flag ” moment in our democracy. This invaluable—and timely—resource includes the Constitution in its entirety and covers nearly every significant aspect of the text, from the powers of the President and how the three branches of government are designed to hold each other accountable, to what it means to have individual rights—including free speech, the right to bear arms, the right to be free from unreasonable searches and seizures, and the right to an abortion. Finally, the book explains why it has never been more important than now for all Americans to know how our Constitution works—and why, if we don ’ t step in to protect it now, we could lose its protections forever. How to Read the Constitution--and Why is essential reading for anyone who cares about maintaining an accountable government and the individual freedoms that the Constitution enshrines for everyone in America—regardless of political party.

The U.S. Constitution A Constitution for All Times

Discusses the meaning and purpose of a constitution; recounts reasons why people thought the United States needed one in the 1780s and the events of the Constitutional Convention; and describes the Constitution's main points and how it has changed.

In this book, readers will learn about the Constitutional Convention of 1787 and how the delegates compromised on various issues so that all the colonies would ratify the Constitution. The checks and balances between the three branches of government are outlined, as well as the relationship between the federal and state governments. The amendment process, and the passage of the Bill of Rights are also explained.

Provides the full text of the United States Constitution, along with facts about the important document and simple biographical information about the framers and signers.

The Constitution of the United States, with Index, and The Declaration of Independence: Pocket Edition This Constitution was proofed word for word against the original Constitution housed in the Archives in Washington, D.C. It is identical in spelling, capitalization and punctuation. It is sized in accordance with one produced by President Thomas Jefferson and includes the Bill of Rights, Amendments 11 through 27, The Declaration of Independence and a complete index of the Constitution. 52 pages. 3-1/4 x 6-1/2 inches. Published by the National Center for Constitutional Studies, a nonprofit educational foundation dedicated to restoring Constitutional principles in the tradition of America's Founding Fathers.

The Confederate States adopted their Permanent Constitution on March 11, 1861. The original document consisted of five vellum sheets pasted together to form a scroll over twelve feet long. The original document, along with many other documents of the Confederacy, was found at a train station in 1865 by a war-time correspondent, Felix DeFontaine. In 1883, he sold the manuscript to Mrs. George Wymberley Jones DeRenne. In 1939, the DeRenne family sold the document to the University of Georgia, where it now resides.

Debates over constitutional rights impact you every day as an American citizen. But do you know what the U.S. Constitution actually says? This accessible guide contains the complete text of the Constitution, with short, descriptive margin notes throughout. Articles and amendments are then analyzed in depth to help you comprehend the basis of democracy. This valuable handbook covers: How the articles and amendments were drafted Insight into the intentions of the creators and the sources they used Controversial interpretations and Supreme

Court decisions How the Constitution affects citizens every day The Declaration of Independence, the Articles of Confederation, and unratified Constitutional amendments This book walks you through the history of this essential document and shows how it has guided lawmakers and judges for more than 200 years. This unbiased look at the Constitution will help you feel confident in your knowledge of this all-important document, gain a firmer understanding of how our government works, and put context around today's most pressing issues. The story of how the American people have taken an imperfect constitution—the product of compromises and an artifact of its time—and made it more democratic Who wrote the Constitution? That's obvious, we think: fifty-five men in Philadelphia in 1787. But much of the Constitution was actually written later, in a series of twenty-seven amendments enacted over the course of two centuries. The real history of the Constitution is the astonishing story of how subsequent generations have reshaped our founding document amid some of the most colorful, contested, and controversial battles in American political life. It's a story of how We the People have improved our government's structure and expanded the scope of our democracy during eras of transformational social change. The People's Constitution is an elegant, sobering, and masterly account of the evolution of American democracy. From the addition of the Bill of Rights, a

promise made to save the Constitution from near certain defeat, to the post–Civil War battle over the Fourteenth Amendment, from the rise and fall of the "noble experiment" of Prohibition to the defeat and resurgence of an Equal Rights Amendment a century in the making, *The People's Constitution* is the first book of its kind: a vital guide to America's national charter, and an alternative history of the continuing struggle to realize the Framers' promise of a more perfect union. Politicians come and go, but the Constitution stands as the supreme law of the land. Setting forth the workings of our democracy, it is the bedrock document from which we derive our policies on topics as diverse and galvanizing as immigration, gun ownership, voting rights, taxation, policing, civil liberties, and war. In this indispensable edition, acclaimed historian and Constitutional expert Ray Raphael guides us through the origins, impact, and current relevance of the original text and all twenty-seven amendments. Here is the key historical context for issues in the news today—from the Electoral College to Washington gridlock, from peaceful protests to executive power. Thoughtful and nuanced, lively and highly readable, this annotated Constitution is for all of us to read and refer to—the ultimate political fact-checking source for every American.

"A joyful celebration of the people whose leaders created the Constitution"—Booklist, starred review "A celebration of America's diversity"—Kirkus "Spier has created a tribute that can be appreciated in more than one sitting."—Publishers Weekly

75 years ago, an alien fleet attacked Earth. Without warning. Without mercy. We were not prepared. Then the aliens abruptly left. We rebuilt. We armed ourselves.

We swore: never again. The aliens never came back ... until now ... It's the year 2650. With overwhelming force the aliens have returned, striking deep into our territory, sending Earth into a panic. Our new ships burn like straw. All our careful preparations are wasted. Only one man, one crew, and the oldest starship in the fleet stand between the Earth and certain destruction: ISS Constitution.

Thomas Jefferson, author of the Declaration of Independence, and James Madison, "Father of the Constitution," were two of the most important Founders of the United States as well as the closest of political allies. Yet historians have often seen a tension between the idealistic rhetoric of the Declaration and the more pedestrian language of the Constitution. Moreover, to some, the adoption of the Constitution represented a repudiation of the democratic values of the Revolution. In this book, Jeff Broadwater explores the evolution of the constitutional thought of these two seminal American figures, from the beginning of the American Revolution through the adoption of the Bill of Rights. In explaining how the two political compatriots could have produced such seemingly dissimilar documents but then come to a common constitutional ground, Broadwater reveals how their collaboration--and their disagreements--influenced the full range of constitutional questions during this early period of the American republic.

“We the People of the United States, in order to form a more perfect union . . . ”
— The U.S. Constitution The U.S. Constitution and Other Writings is part of the Leather-bound Classics series and is a collection of the crucial documents, speeches, and other writings that shaped the United States. In addition to the Constitution, readers can review the Declaration of Independence, the Articles of Confederation, the Federalist Papers, important presidential speeches, and many others. Both famous and lesser-known, but equally important, Americans are represented, including Benjamin Franklin, Victoria Woodhull, Frederick Douglass, Susan B. Anthony, and even the creators of the rules of baseball. The founders' inspirational and revolutionary ideals are all here, and this is a perfect volume for anyone who finds the history of America to be a fascinating and enlightening journey.

The Constitution of the United States (A True Book: American History)

Keeping Faith with the Constitution

From the Constitution to Present-Day Elections, All You Need to Understand Our Democratic System

Warrior

An American View of Law, Liberty, & Government

The U.S. Constitution and You

Learn how The Constitution came to be and how important it still is today. A True Book: American History series allows readers to experience the earliest moments in American history and to discover how these moments helped shape the country that it is today. This series includes an age appropriate (grades 3-5) introduction to curriculum-relevant subjects and a robust resource section that encourages independent study. This book discusses the meaning and purpose of a constitution; recounts reasons why the United States needed one in the 1780s and the events of the Constitutional Convention; and describes the Constitution's main points and how it has changed.

Many of the political issues we struggle with today have their roots in the US Constitution. Husband-and-wife team Cynthia and Sanford Levinson take readers back to the creation of this historic document and discuss how contemporary problems were first introduced—then they offer possible solutions. Think Electoral College, gerrymandering, even the Senate. Many of us take these features in our system for granted. But they came about through haggling in an overheated room in 1787, and we're still experiencing the ramifications. Each chapter in this timely and thoughtful exploration of the Constitution's creation begins with a story—all but one of them true—that connects directly back to a section of the document that forms the basis of our society and government. From the award-winning team, Cynthia Levinson, children's book author, and Sanford Levinson, constitutional law scholar, *Fault Lines in the Constitution* will encourage exploration and discussion from young and old readers alike.

Tells the story behind the ultimate legal document of the United States. Each spread provides information about the context, wording, and lasting effects of the document paired with interesting sidebars, questions to consider, and historical images.

This is a new release of the original 1937 edition.

The People's Constitution

The Collected Works of Friedrich August Hayek

The Story of the Constitution

Fix It Now

The U.S. Constitution A to Z

Occupied Earth

A concise history of the long struggle between two fundamentally opposing constitutional traditions, from one of the nation's leading constitutional scholars—a manifesto for renewing our constitutional republic. The Constitution of the United States begins with the words: “We the People.” But from the earliest days of the American republic, there have been two competing notions of “the People,” which lead to two very different visions of the Constitution. Those who view “We the People” collectively think popular sovereignty resides in the people as a group, which leads them to favor a “democratic” constitution that allows the “will of the people” to be expressed by majority rule. In contrast, those who think popular sovereignty resides in the people as individuals contend that a “republican” constitution is needed to secure the pre-existing inalienable rights of “We the People,” each and every one, against abuses by the majority. In *Our Republican Constitution*, renowned legal scholar Randy E. Barnett tells the

fascinating story of how this debate arose shortly after the Revolution, leading to the adoption of a new and innovative “republican” constitution; and how the struggle over slavery led to its completion by a newly formed Republican Party. Yet soon thereafter, progressive academics and activists urged the courts to remake our Republican Constitution into a democratic one by ignoring key passages of its text. Eventually, the courts complied. Drawing from his deep knowledge of constitutional law and history, as well as his experience litigating on behalf of medical marijuana and against Obamacare, Barnett explains why “We the People” would greatly benefit from the renewal of our Republican Constitution, and how this can be accomplished in the courts and the political arena.

Classic Books Library presents this brand new edition of “The Federalist Papers”, a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. “The Federalist”, as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some

of the Founding Fathers of the United States. Alexander Hamilton (c. 1755–1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

Provides an introduction to the United States Constitution, covering the responsibilities of the three branches of government, the system of checks and balances, and the rights given to individual citizens. Original.

From war powers to health care, freedom of speech to gun ownership, religious liberty to abortion, practically every aspect of American life is shaped by the Constitution. This vital document, along with its history of political and judicial interpretation, governs our individual lives and the life of our nation. Yet most of us know surprisingly little about the Constitution itself, and are woefully unprepared to think for ourselves about recent developments in its long and storied history. The Constitution: An Introduction is the definitive modern primer on the US Constitution. Michael Stokes Paulsen, one of the nation's most provocative and accomplished scholars of the Constitution, and his son Luke Paulsen, a gifted young writer and lay scholar, have combined to write a lively

introduction to the supreme law of the United States, covering the Constitution's history and meaning in clear, accessible terms. Beginning with the Constitution's birth in 1787, Paulsen and Paulsen offer a grand tour of its provisions, principles, and interpretation, introducing readers to the characters and controversies that have shaped the Constitution in the 200-plus years since its creation. Along the way, the authors provide correctives to the shallow myths and partial truths that pervade so much popular treatment of the Constitution, from school textbooks to media accounts of today's controversies, and offer powerful insights into the Constitution's true meaning. A lucid and engaging guide, *The Constitution: An Introduction* provides readers with the tools to think critically and independently about constitutional issues—a skill that is ever more essential to the continued flourishing of American democracy.
