Juniper Networks announced a virtual tour of its Contrail SD-WAN platform that allows users to demo a live, global SD-WAN deployment.

Juniper SD-WAN Demo Lets Customers Try Before They Buy ...

The big idea for SD-WAN is that multiple physical WAN links of any sort can be used to carry traffic without the network engineer having to do much engineering. Rather, the SD-WAN solution runs an overlay (tunneling) on top of the physical infrastructure, abstracting the actual

links away. SD-WAN forwarders (somewhat analogous to routers) monitor [...]
