2D Animation in Unity (Tutorial)

Hi everyone , I am new to game development and programming. I thought that trying to create a 2D RPG (probably a really simple one) would be a great way to get myself started in game development and help me learn a programming language. The problem is I do not really know what programming language and/or game engine to use.

Making a 2D RPG - For Beginners - GameDev.net

There is a lot of ways to create 2D game Character but most of the Designers are using this method. First, you need to find some character reference and then create your character rough sketch from your visualization. Once you are done with your sketch, you have to make it look real using Designing Software like Flash, Photoshop, Illustrator etc..

How to create a 2D game character - Quora
