number of problems, particularly with the high-pressure coolant system it used. I believe they moved away from that at some point. The D16 is quite a bit heavier than the D12/D13--front axle weights can be an issue when you single.

The D16 is cast and machined at Volvo's

foundry and engine
plant in Skvde,
Sweden, and
assembled in
Hagerstown, Md.

"The D16 is the first
of Volvo's new
family of engines for
North America, and is
the most advanced
engine on the road
today," said Scott
Kress, senior vice
