Affordable Diesel Generator Deep Sea 7220 Digital Controller Overview

The DSE5220 is an Automatic Mains Failure Control Module designed to automatically start and stop diesel and gas generating sets that include non electronic engines. The module also provides excellent engine monitoring and protection features. The module has the ability to monitor under speed, over speed, charge failure, emergency stop, low oil pressure, high engine temperature, fail to start ...

DSE5220 - Deep Sea Electronics Plc

The DSE7420 MKII is an intelligent, powerful auto mains (utility) failure control module with high-level features and functionality. The control module is the first module in the DSE range to include in-built SNMP and features an embedded web server. The module is suitable for a wide range of single-set gas and diesel applications.

DSE7420 MKII - Deep Sea Electronics Plc

The DSE7120 is an Auto Mains (Utility) Failure Control Module with an icon-based display. The control module has been designed to control single diesel or gas gen-set applications.

MAINS (UTILITY) - Deep Sea Electronics Plc

The DSE7420 is a sophisticated mono display auto mains (utility) control module packed with industry leading features to enhance single-set control. The module can be used across a wide range of diesel and gas gen-set applications.
