### CHAPTER 5 PROJECT SCOPE OF WORK - JICA

The 2000 Maryland Stormwater Design Manual is the official guide for stormwater management principles,

methods, and practices in Maryland. The Design Manual was originally published in October 2000, and was revised in May 2009. The following is a list of the individual chapters of the Design Manual that may be downloaded.

Maryland Stormwater Design Manual  
funding is approved. See Chapter 3 of this Manual for further explanation. 5.3 Conduct Consultant Selection / Execute Consultant Agreement The Local Agency may hire a consultant to design and/or administer the construction of its project. To obtain Federal reimbursement, the Local Agency shall use CDOT's

## PROJECT DEVELOPMENT CHAPTER 5

The manual is an excellent tool for the design engineer to use as the particular aspects of a project are being addressed. It is not a textbook, but rather a document that provides design guidance through references to appropriate national standards and regulations in Iowa. The Design Manual is a direct complement to the SUDAS Standard ...
