## Chapter 38

Digestive and Excretory Systems Quiz - Quizizz  
Chapter -3, CLASS-IV HUMAN BODY: THE  
DIGESTIVE AND ...

Nutrients (sugars, short proteins, some vitamins and minerals, simple fatty acids) pass through intestinal cells and are absorbed by capillaries. Fats and fat-soluble vitamins are absorbed by the lymph vessel in villi, move through the lymphatic system and enter the blood in the heart to be carried to the body cells.  
Nutrients in the body

1 Digestive system The digestive system from the mouth and through the alimentary tract (aka gut) to the anus, including, going from top to bottom – Mouth, where food is first acquired into the mouth, known as ingestion. Food is then digested by mechanically chewing.
