Password requirements: 6 to 30 characters long; ASCII characters only (characters found on a standard US keyboard); must contain at least 4 different symbols;

Dr. Meeler is a professor at Winthrop University. He has attended Elon University, University of Arkansas and University of California-Santa Barbra. He has published multiple papers on topics including human rights, culture, political discussion, posthumanism and international affairs to name a few. Courses he has taught range from logic to bio-medical ethics.

It seems like it makes sense to say that things like refrigerators and air conditioners “ make cold ” , but like every other machine ever created (or ever to be created) they ultimately just make heat. A refrigerator “ creates cold ” in very much the same way that a drain “ creates lack-of-water ” ; it moves heat from its inside to its outside.

Does Santa Exist A Philosophical

OK, if your definition of “ existence ” means anything that can be conceived in one ’ s own mind or things that exist elsewhere in the multi-verse, well sure, Santa Claus exists. If you are now going to try to shoehorn that definition into one to justify the reality of a social construct you ’ d be hard-pressed to do that.

Santa Claus DOES Exist (a philosophical exercise ...

God, in monotheistic thought, is conceived of as the supreme being, creator, and principal object of faith. God is usually conceived of as being omnipotent (all-powerful), omniscient (all-knowing), omnipresent (all-present) and omnibenevolent (all-good) as well as having an eternal and necessary existence. God is most often held to be incorporeal (immaterial).

The Big Bang theory is a cosmological model of the observable universe from the earliest known periods through its subsequent large-scale evolution. The model describes how the universe expanded from an initial state of high density and temperature, and offers a comprehensive explanation for a broad range of observed phenomena, including the abundance of light elements, the cosmic microwave ...

Big Bang - Wikipedia

Existence raises deep and important problems in metaphysics, philosophy of language, and philosophical logic. Many of the issues can be organized around the following two questions: Is existence a property of individuals? and Assuming that existence is a property of individuals, are there individuals that lack it? What does it mean to ask if existence is a property?

Existence (Stanford Encyclopedia of Philosophy)

Platonism is the view that there exist such things as abstract objects — where an abstract object is an object that does not exist in space or time and which is therefore entirely non-physical and non-mental. Platonism in this sense is a contemporary view. It is obviously related to the views of Plato in important ways, but it is not entirely ...

Platonism in Metaphysics (Stanford Encyclopedia of Philosophy)

The Anabaptist movement, from which the Amish later emerged, started in circles around Huldrych Zwingli (1484 – 1531) who led the early Reformation in Switzerland. In Zürich on January 21, 1525, Conrad Grebel and George Blaurock practiced adult baptism to each other and then to others. This Swiss movement, part of the Radical Reformation, later became known as Swiss Brethren.

Agnosticism is traditionally characterized as neither believing that God exists nor believing that God does not exist. Atheism can be narrow or wide in scope. The narrow atheist does not believe in the existence of God (an omni- being). A wide atheist does not believe that any gods exist, including but not limited to the traditional omni-God.

Atheism | Internet Encyclopedia of Philosophy

An additional philosophical argument sometimes offered in support of emergent time being real draws attention to the question of how there could be observational support for a theory that time does not exist since (i) observations occur in time, and (ii) causal reasoning requires that causes occur before their effects.

Cogito, ergo sum is a philosophical statement that was made in Latin by René Descartes, usually translated into English as "I think, therefore I am". The phrase originally appeared in French as je pense, donc je suis in his

Discourse on the Method, so as to reach a wider audience than Latin would have allowed. It appeared in Latin in his later Principles of Philosophy.

Cogito, ergo sum - Wikipedia

The encyclical Rerum Novarum (RN) published in 1891 is considered the first great social encyclical of modern times. In 1931 the encyclical Quadragesimo Anno was published, in 1971 Octogesima Adveniens was published, in 1981 Laborem Exercens and in 1991 Centesimus Annus was published. These letters of the Roman pontiffs form the foundation for Catholic Social Doctrine and are meant to awaken ...

Pre-philosophical speculations of yoga began to emerge in the texts of c. 500 – c. 200 BCE. Between 200 BCE and 500 CE, philosophical schools of Hinduism, Buddhism, and Jainism were taking form and a coherent philosophical system of yoga began to emerge. The Middle Ages saw the development of many satellite traditions of yoga.
