Review: Drugs – Without the
Hot Air (David Nutt) He

argues that the risks of cannabis use are much less severe than the harms caused by prison. He mentions that 7% of heroin users first tried heroin in prison whereas in the Netherlands, where cannabis use is decriminalised, heroin use is among the lowest in Europe. In the wake of recent changes to legislation on cannabinoid prescribing we decided to discuss *Drugs – without the hot air 1* (figure 1) for the latest Edinburgh Neurology Book Club. Written by David Nutt, Professor of Neuropsychopharmacology,

this book provides his account of how he became the ' scientist who was sacked ' by the UK Home Secretary, after comparing the risks of harm from ...
