E46 Manual Transmission Fluid Change

The following are steps highlighting replacing the transmission fluid in a BMW E46 with a manual gearbox. Drive your vehicle for about five minutes to warm the transmission fluid. Jack up all four corners of your vehicle. I suggest using four jack stands and slowly raising the vehicle to the required height.

BMW E46 Manual Transmission Fluid Replacement | BMW 325i ...

Locate both the drain plug (on the bottom – picture below) and fill plug (on the passenger side up about 6 inches on the transmission). Mine were stuck so I sprayed some PB Blaster on them. Remove the FILL plug FIRST. This prevents you from having an empty transmission and a stuck fill plug. 9) Put a catch pan below the drain plug and remove it.

BMW E46 How To Change Automatic Transmission Fluid - YouTube

The BMW Repair Guide recommends at a minimum an E46 transmission service fluid and filter change every 60,000 miles. This recommendation is for “ normal ” driving conditions. If you track/race your vehicle or are a more aggressive driver, we suggest a BMW E46 transmission service even more frequently.

BMW E46 Transmission Service - Automatic 1998-2005 3 Series

BMW E46 325xi 330xi Transmission Fluid Change A5S 390R. Even though BMW claims that transmission fluid in BMW E46 is a life-time fill and doesn't need to be changed I highly recommend changing it by 100K miles and preferably sooner. By 100K miles the fluid is usually very dirty. This fluid change was performed on a 2002 BMW 325xi with A5S 390R transmission so the procedure will be the same on any BMW 2001-2005 325xi or 330xi.

BMW E46 325xi 330xi Transmission Fluid Change

BMW E46 M3 S54 3.2L Fluid. MTL Manual Transmission Fluid 75w80 - 1 Quart. GL-4 gear oil that may allow for faster shifts than standard 75w90 fluid. Brand: ES#: 1502. Mfg#: RL MTL. Qty: Choose how many gift cards you would like below. You can set the denomination in your cart during checkout.

BMW E46 M3 S54 3.2L Manual Transmission Fluids - ECS Tuning

Replacing the strainer allows you to clean the transmission fluid pan of dirt and debris. E46 models utilize a plastic oil pan with a built in strainer. To service the strainer, you will have to replace the oil pan. The transmission holds about 10 liters of fluid.

BMW E46 Automatic Transmission Fluid Replacement | BMW ...

When you check the transmission fluid prior to changing it, make sure the engine is turned on. If you find that your transmission fluid level is lower than it should be, then you first need to make sure there are no leaks in the system. Once you can confirm that, replace the existing fluid right away with an adequate level of new fluid. Lastly, you can easily tell if the existing transmission fluid is bad because it

will look rather brownish and may even have a bad burning odor to it.

How Often to Change Transmission Fluid (Manual and Automatic)

Manual Transmission Lube and Manual Transmission Fluid. Both are for manual transmissions but due to the chemical differences there is a need to differentiate which cars they apply to. "Lube" is for vintage models and "Fluid" is for newer cars (late-1990s and newer). Viscosity: The rating for the internal friction of fluid dependent on temperature.

Transmission and Differential Fluid for BMW

E46 M3 Maintenance: Basic. Oil change is done every 5,000 miles. The first BMW Inspection I Service comes in at 30,000 miles and every 60,000 miles after that. BMW Inspection II Service starts at 60,000 miles and every 60,000 miles after that. Here is my maintenance schedule laid out for the first 120,000 (odometer) miles of ownership.
