When a class leaves for recess, their just-baked Gingerbread Man is left behind. But he's a smart cookie and heads out to find them. He'll run, slide, skip, and (after a mishap with a soccer ball) limp as fast as he can because: "I can catch them! I'm their Gingerbread Man!" With help from the gym teacher, the nurse, the art teacher and even the principal, the Gingerbread Man does find his class, and he's assured they'll never leave him behind again. Teachers often use the Gingerbread Man story to introduce new students to the geography and staff of schools, and this fresh, funny twist on the original can be used all year long. Includes a poster with fun activities!

Writing the How-to Paragraph uses the FNTF formula (First, Next, Then, Finally ) to introduce students to basic, four-sentence paragraph writing. From there, students learn how to expand their paragraphs with more details and eventually write multiparagraph essays. Throughout, they are given practice with editing marks, encouraged to use graphic organizers, and provided with ample opportunities to practice new skills. Each lesson ends with a review section, a quiz, and paragraph writing assignments. Grades 5-8."

Why you need a writing revolution in your classroom and how to lead it The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, The Writing Revolution can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities The Writing Revolution is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

Interactive Writing is specifically focused on the early phases of writing, and has special relevance to prekindergarten, kindergarten, grade 1 and 2 teachers.

ADHD, ADD, Dyslexia, Learning Styles, Learning Disabilities, Dysgraphia From Mrs. Thompson, the teacher, to Frederick, the class guinea pig, everything about second grade seems good to Carolyn. But when the class starts practicing the slants and curves of cursive writing, she finds it difficult and her happiness evaporates. Detailing her frustrations and contrasting her struggles with a classmate's easy success, this picture book reflects experiences familiar to many young students. Carolyn's sympathetic teacher puts things in perspective, telling her that when it comes to writing, ideas and emotions are much more important than slants and curves. Designed to encourage children, books in the Adventures of Everyday Geniuses series tell stories of students who struggle in some respects, while excelling in others. Bright with colorful washes, the cartoonlike drawings clearly express the characters' emotions. Given the pressure to introduce cursive writing to younger students, this picture book will resonate with a growing number of children. Carolyn Phelan --BOOKLIST American Library Association
