In this course students will explore a variety of topics within algebra including linear, exponential, quadratic, and polynomial equations and functions. Students will achieve fluency in solving linear and quadratic equations as well as with manipulation of polynomials using addition, subtraction, multiplication, and factoring. Students will understand the key differences between linear and ...

Common Core Algebra I - eMathInstruction

In this course students expand their ability to work with the numbers by using operations with multi-digit numbers, working with fractions, including dividing two fractions, working with decimals, and an introduction to negative numbers. Students work extensively with ratios including equivalent ratios, unit rates, and percentages. Work with algebra includes variables, equivalent expressions ...

N-Gen Math™ 6 - eMathInstruction

In this course students increase their ability to use algebra to solve problems, including the solution of equations with variables on both sides. Extensive work is done in geometry to understand rigid motions, dilations, and their connections to congruent figures, symmetry, and similarity. The equation of a line in the coordinate plane is developed from work with proportional relationships ...
