**The Study Guide for Those Learning Latin**

A user-friendly reference guide plus workbook containing the most important rules of English grammar, punctuation, capitalization, and writing numbers that people need every day. Full of helpful, real-world examples, exercises, tests, and answers. Perfect for business professionals, professors, teachers, students, and home schooling families. The Blue Book of Grammar and Punctuation is used in hundreds of universities, high schools, middle schools and corporations through the United States as well as in developing nations. Take an online quiz, get editing help, order the book, join the Q&A club, read Jane Straus's articles, or register for her monthly newsletter.

This volume explores both historical and current issues in English usage guides or style manuals. Guides of this sort have a long history: while Fowler's Modern English Usage (1926) is one of the best known, the first English usage guide was published in the UK in 1770, and the first in the US in 1847. Today, new titles come out nearly every year, while older works are revised and reissued. Remarkably, however, the kind of usage problems that have been addressed over the years are very much the same, and attitudes towards them are slow to change - but they do change. The chapters in this book look at how and why these guides are compiled, and by whom; what sort of advice they contain; how they differ from grammars and dictionaries; how attitudes to usage change; and why institutions such as the BBC need their own style guide. The volume will appeal not only to researchers and students in sociolinguistics, but also to general readers with an interest in questions of usage and prescriptivism, language professionals such as teachers and editors, and language policy makers.

An engaging and fresh take on the rules and politics of English grammar, written in lively prose. It goes a step further than most books on grammar by providing an overview of the field, with a discussion of historical and current debates about grammar, and how we define, discuss, and approach it. Presents a novel, inquiry-based approach to understanding speakers' unconscious knowledge of English grammar Makes lucid connections, when relevant, with current linguistic theory Integrates language change and variation into the study of grammar Examines historical sources of socially evaluative perceptions of grammar, as 'good' or 'bad', and notions of language authority Provides syntactic explanations for many modern punctuation rules Explores some of the current controversies about grammar teaching in school and the role of

Standard English in testing and assessment

The English Grammar: Step by Step series is unique because it is specifically designed for Spanish-speaking students who have little or no knowledge of Spanish or English grammar. English Grammar: Step by Step 1 covers basic punctuation and capitalization in English; the verbs to be and to have; contractions with to be; and possessive adjectives (my, his, her, etc.). It also includes more than a thousand exercises,

with answers, and a dictionary that includes all of the words used in the book. An accompanying book, Teaching English: Step By Step 1, provides listening and speaking exercises that accompany the grammar exercises presented in English Grammar: Step by Step 1.
