This Naval Staff History, originally published on a restricted basis, and not on sale to the general public, is now available in four books. Book 1 provides a summary of the strategy of the war with Japan and a description of Japan's military and economic situation, including the Japanese assault on the British, American and Dutch possessions which began in 1941. Book 2 describes the operations in the Solomon Islands which stopped the Japanese advance southward, and the campaign in New Guinea which furnished the Allies with a main base in the Admiralty Islands. Book 3 covers the reconquest of Burma and the operations of the Eastern Fleet. Book 4 opens with a description of the military situation of the Japanese and ends with their surrender on August 14th.

An examination of the lifecycle of soldiers, including enlistment, experiences of military life, the soldier's place in society and in politics, and military identity, memory and representation.

Monarch By: Caleb A. Falke For Jabin, life within the safety of

Sotaria's walls is all he can imagine—which is a shame because he won't be seeing the inside of Sotaria for much longer. Wrongly convicted of stealing his own front porch, he's banished, forced to survive in the harsh lands outside of the city. But, in order to do so, he has to rely on the help of a roguish Vastlander. Worse still, her methods of helping seem to be either based in superstition or attempts to drive him insane.

A Royal Affair: Baros, a freshly medaled Queen's Guard is escorting the king and queen back home after tense negotiations with the Parilstan Lords. However, his duty quickly changes as bandits ambush their camp, capturing the monarchs. Baros and Tanasia, the only two lucky enough to escape the raid, are tasked with how to save the Gradorian royalty as the city is surrounded by enemies. Unseen Wounds: The Parilstan War has been underway for over one full year, four hundred days to be exact. Long hours of

marching and fighting have made Baros and Arakos wary. However, they sense a new opportunity for excitement when Queen Tanasia's caravan rolls through their camp. While the two anticipate another heart pounding mission, they are surprised to find that the battles they will face not only involve blades and blood, but their heart and soul. Sometimes, the wounds that hurt the most are the ones that do not bleed.

This two-volume 1849 work attempts to remove the accretions of myth clinging to Francis I and to his court.

The subject of this study is the prophetic history of the succession of Solomon to the throne of the dual monarchy established by David over the kingdoms of Israel and Judah, the centralization of Israelite religion in the Temple of Jerusalem, the collapse of the dual monarchy after the death of Solomon, the subsequent stories of the numerous kings of Israel and Judah, and especially the severe interactions of the kings of Israel from Jeroboam to Ahab (c. 932c.855 BCE) with the prophets Ahijah, Elijah, and Micaiah, as presented in the Masoretic text of the biblical First Book of Kings. The term prophetic history is employed to describe the subject because prophecy in biblical thought is not fatalistic and does not predict future events. What it does do is assert that the moral course that a society chooses to follow in the present can determine its probable but not inevitable future. The purpose of the biblical book is to inform the reader of the historical consequences of the failure to observe the terms of the divine covenant entered into

between God and the children of Israel at Mount Sinai, following the exodus from Egypt. Although the narrative is based on events that were believed to have taken place, the primary focus of prophetic history is on the moral implications of the decisions taken by men rather than the factual accuracy of the details of the events described, which have been studied exhaustively by archaeologists and historians of the ancient world.

Was it the rebirth of a Martial Soul? Or was it relying on the Martial Skills? Because he had offended the three great families, Yi Zhou, a youngster with nine large veins who had been trapped in the Seal, finally emerged from the three great academies of the Azure Sun Dynasty due to his fortuitous encounter in the Misty Forest, obtaining an unknown Martial Soul and the Four Arts of the Sky Demons. However, in the end, the Azure Sun Empire was only a small country that was subordinate to a large country. What Yi Zhou had to face were not only the various countries, but also that

mysterious sect and that mysterious world. Under so many dangers, would Yi Zhou be able to succeed?

First published in the Catalan language in Valencia in 1490, *Tirant lo Blanc* ("The White Tyrant") is a sweeping epic of chivalry and high adventure. With great precision and verve, Martorell narrates land and sea battles, duels, hunts, banquets, political maneuverings, and romantic conquests. Reviewing the first modern Spanish translation in 1969 (Franco had ruthlessly suppressed the Catalan language and literature), Mario Vargas Llosa hailed the epic's author as "the first of that lineage of God-supplanters—Fielding, Balzac, Dickens, Flaubert, Tolstoy, Joyce, Faulkner—who try to create in their novels an all-encompassing reality."

Escorting the Monarch is as close to an official history of the Metropolitan Police's 'Special Escort Group' (SEG) as one could hope for. You may have seen the team at work; as the combination of motorcycles and cars pass you by, they glide elegantly and seemingly effortlessly through busy traffic. Developing a dedicated and diligent team culture, they are masters of their trade. They hold a well-earned reputation for excellence amongst their peers; delivering their passengers (and cargo) on time,

safely, in a great deal of style, and without fuss or mishap. Professional and precise in the execution of their operations, they are neither shaken nor stirred. Although the work of the SEG demands exquisitely high levels of presentation there is little room for gloss or glitter. The individuals and property they are charged to protect are assessed by government to need the highest possible levels of protection. From queens, kings, presidents and emperors, to priceless works of art, terrorists and high risk prisoners, the group escort them all. Written by the son of a retired SEG officer who himself served in the British Government's security and intelligence community, *Escorting the Monarch* is told, in part, through first hand stories and anecdotes gleaned from former officers of the group. The insights offered are unique, privileged and first of their kind. Chris Jagger unfolds a collection of fascinating and never before told stories built on high profile events, such as the funeral of Sir Winston Churchill, and the visit of Nelson Mandela. Now the SEG have honed their skills for over 6 decades. Through a carefully constructed description of a changing security and political environment across the decades, and an insightful analysis of the ingenuity of those who have served with the SEG, *Escorting the Monarch* explains the events that made the group who they are today.

Cyropaedia - The Life of the Great Monarch

André Malraux and the Reinvention of French Culture

In Volume 5, the United States officially enters the war. Highlights of this action-filled volume include: Minute-by-minute detail of Japanese attack on Pearl Harbor; Japanese attacks on Wake Island, Luzon, Hong Kong, Malaya, Burma, etc., early attacks by US Navy subs in the Pacific; Russian Black Sea Fleet landing troops in the Crimea; continuing naval struggle in the Mediterranean; German U-boat attacks along the US Atlantic coast; Japanese attacks on US Pacific coast; American-British-Dutch-Australian Command battles the superior forces of the Imperial Japanese Navy; and the Battle of the Java Sea and the Battle of Sunda Strait.

Cyropaedia is a biography of Cyrus the Great, the founder of Achaemenid Empire and the first Persian Empire. It is "a political romance, describing the education of the ideal ruler, trained to rule as a benevolent despot over his admiring and willing subjects." Aspects of it would become a model for medieval writers of the genre known as mirrors for princes. In turn it was a strong influence upon the most well-known but atypical of these, Machiavelli's *The Prince*.

Modern talented female students accidentally transmigrated and became the cowardly and useless direct descendant of the general's house. On top of that, there was a fierce

and tyrannical concubine who could cover the sky with one hand, and a beautiful little sister who could look like a blooming flower with a heart like a scorpion. Fortunately, she had been reborn, and she was no longer the weak girl who had been bullied. His mother tried to scheme, bit back, and his sister framed him, sending him flying! And there was also that trashy Emperor who had nothing to do all day long to find trouble with. His grandaunt's fists were not for naught. If he provoked her, that would be too hasty. Huff!

Edgar Rice Burroughs wrote this tale of confused identity and royal intrigue in 1914 and 1915, as World War I was getting ready to happen: it means to be an homage to Anthony Hope's Prisoner of Zenda. But, of course, it isn't Hope writing, but Burroughs: the events that led to the war inform the book, and it speaks to the real events happening as Burroughs wrote. That makes it a very different story from Hope's almost-whimsical novel. Part of the reason

Burroughs left such a lasting mark on the world is because he was engaged in the events that surrounded him; the news troubled him deeply and personally. As well it might! He was writing, as he always did, on fantastical topics; but it is the fantastic nature of the twentieth century that is the real text of the man's career. The events that shape our own times now inform the work at hand: Edgar Rice Burroughs is generally described as a "Pulp Writer" -- that's code for a successful hack -- but the truth is that he was much, much more.

Thomas Harrison is today perhaps best remembered for the manner of his death. As a leading member of the republican regime and signatory to Charles I's death warrant, he was hanged, drawn and quartered by the Restoration government in 1660; a spectacle witnessed by Samuel Pepys who recorded him 'looking as cheerful as any man could do in that condition'. Beginning with this grisly event, this book employs a thematic, rather than chronological approach, to illustrate the role of millenarianism and providence in the English Revolution, religion within the new model army, literature, image and reputation, and Harrison's relationship with key individuals like Ireton and Cromwell as well as groups, most notably the Fifth Monarchists.

This fascinating history reassesses the consequences of Portugal's flourishing private trade with Asia, including increased tensions between the growing urban merchant class and the still-dominant landed aristocracy. James C. Boyajian shows how Portuguese-Asian commerce formed part of a global trading network that linked not only Europe and Asia but also—for the first time—Asia, West Africa, Brazil, and Spanish America. He also argues that, contrary to previous scholarly opinion, nearly half of the Portuguese-Asian trade was controlled by New Christians—descendants of Iberian Jews forcibly converted to Christianity in the 1490s.

Traveling in a First-Class Cabin on the luxury liner *France* early in 1963, the Western world's most famous painting sailed across the Atlantic on its maiden voyage to the United States. The goodwill generated by the loan eased U.S.-French relations, which had soured over tensions stemming from the cold war. The mastermind behind the *Mona Lisa*'s triumphant tour was France's newly appointed minister of cultural affairs, Andre Malraux. In this book, Herman Lebovics recounts how Malraux's brilliant foray into the realm of diplomacy was but one example of his efforts to employ France's cultural heritage in the service of a renewed national grandeur.

Festivals and ceremonials played a major role in the Spanish world; through them local identities as well as a common Spanish culture made their presence manifest within and beyond the peninsula through ephemeral displays, music and print. This book explores Habsburg Visual culture at court and its connection with the creation of a language of triumph, the relationship between religion and the empire, and examines cultural, artistic and musical exchange in Naples and Rome. Taken together these essays contribute further to our growing appreciation of the importance of early-modern festival culture in general, and their significance in the world of the Spanish Habsburgs in particular.

Mistress of the Monarchy

Acclaimed author Alison Weir brings to life the extraordinary tale of Katherine Swynford, a royal mistress who became one of the most crucial figures in the history of Great Britain. Born in the mid-fourteenth century, Katherine de Roët was only twelve when she married Hugh Swynford, an impoverished knight. But her story had truly begun two years earlier, when she was appointed governess to the household of John of Gaunt, Duke of Lancaster and fourth son of King Edward III. Widowed at twenty-one, Katherine became John's mistress and then, after many twists of fortune, his bride in a scandalous marriage. *Mistress of the Monarchy* reveals a woman ahead of her time—making her own choices, flouting convention, and taking control of her own destiny. Indeed, without Katherine Swynford, the course of English history, perhaps even the world, would have been very different.
