The book examines the missionary-evangelists' side of establishing non-Orthodox ecclesial communities in three major ethnic groups in southern Ethiopia between 1927-1944. The Kale Heywat Church, an association of almost 3600 congregations is the strongest confirmation of the movement's success.

Whether you are just beginning your journey into the Ethiopian Orthodox Tewahedo Church or have long been a member but are looking for answers to your questions about the church, "I Need Answers" is for you. Although the answers are gathered from Church fathers and holy books, the style of writing provides clear answers to complicated questions. The past few years the

Ethiopian Orthodox Tewahedo Church has seen her youth leaving in mass numbers. Why? Mainly because the youth cannot get understandable answers to their questions. The Church uses Amharic as its primary language and Ge'ez as the liturgical, preventing young people born in America from being able to understand the worship or teaching of the Ethiopian Orthodox Tewahdo Church.. Deacon Dawit Muluneh, who has traveled around the United States teaching and preaching during the last decade, has gathered the most frequently asked questions and provided answers in a way that can be understood by the youth. Each chapter focuses on a particular question, addressing central themes of Christianity and teaching about the uniqueness of the Ethiopian Orthodox Tewahedo Church. It also addresses issues

specific to young adults like spiritual dating and depression and more controversial issues like homosexuality in the context of the church.

The aim of this study is to describe the traditional Biblical and patristic Amharic commentary material of the Ethiopian Orthodox Church, and to present in translation a sufficient sample of the Amharic, and also the Geez, commentary material, that its character can be clearly seen. Accordingly, the study is divided into three parts - a general introduction, an annotated translation of a Geez commentary, and an annotated translation of an Amharic commentary. The book chosen for parts II and III is the Apocalypse of John.

Young Yared is not the best student. He fails so often that he
considers giving up on school completely. But the failures and
perseverance of a caterpillar inspire him to untangle his heart and

return to his studies with purpose. Motivated by the beauty of church music, he developed a new way to write it that caught the ear of the emperor. His devotion to music and education elevated him from the streets of Axum to Sainthood, and his music is still considered sacred to the Ethiopian Orthodox Church. Side by side text in indigenous Ethiopian languages like Amharic, Tigrinya and Afaan Oromo support reading fluency. The Ethiopian Bible is the oldest and most complete bible on earth. Written in Ge'ez an ancient dead language of Ethiopia it's

nearly 800 years older than the King James Version and contains over 100 books compared to 66 of the Protestant Bible. The Ethiopian Bible includes the Books of Enoch, Esdras, Buruch and all 3 Books of Meqabyan (Maccabees), and a host of others that were excommunicated from the KJV. Books of the Ethiopian Bible features 20 of these books that are not included in the Protestant Bible.

This book opens a window into the lives and extraordinary witness of a Christian couple whose faithful life of service has earned the moniker of Ethiopia ' s Bonhoeffer. In Part One, the reader encounters the extant writings of Gudina Tumsa. Gudina ' s ideas were by no means silenced by his murder. If anything, quite the opposite, as is so often the case with martyrs. Part Two is a highly personal account of Gudina and Tsehay ' s life, witness, and

sufferings. Aud Saeveras, a Norwegian missionary working with her husband in Ethiopia, got to know Tsehay during her many years in prison, often bringing her food. After Tsehay was finally released, Saeveras encouraged her to report the truth about what had happened. The result was this memoir, first written in Norwegian, then translated into German, and now for the first time in English. Saeveras frames the story, but most of the words are Tsehay ' s. This collection concludes with an essay by Samuel Yonas Deressa on the impact that Gudina ' s vision has had on the EECMY and the formation of the Gudina Tumsa Foundation with its various scholarly and development activities. Gudina lives on in the many Ethiopian Christians who continue to be inspired by his life and witness.

the first time, fans will have a beautifully designed daily companion to the author's life-changing creative process. With 365 quotations culled from Julia Cameron's most vital works on the creative process, this elegant little book can easily be carried along as the reader travels her groundbreaking spiritual path to higher creativity. In her introduction to the book, Cameron reveals the importance of cultivating one's creativity every day and offers stunning new insights on the relationship between creativity and spirituality. As the world becomes increasingly challenging to navigate, The Artist's

Way Every Day will serve as a daily reminder of the healing power of creativity to nourish the soul. Traditionally Ethiopia has formed a bridge between civilizations, with Jerusalem as vital as Aksum in the national consciousness of the Ethiopians. In this volume, Professor Ullendorff investigates the relationship of Ethiopia to the Bible. He considers the historical background, translations of the Bible into Ethiopian languages, and the impact of the Old Testament, which goes beyond anything experienced in the other Oriental Christian Churches. The book concludes with an examination

of the story of the Queen of Sheba, based on the Biblical account of the queen's visit to King Solomon. It shows how this account has undergone extensive Arabian, Ethiopian, Jewish and other elaborations, to become the subject of one of the most ubiquitous and fertile cycles of legends in the Near East.

A Brief Introduction to Its Life and Spirituality

A History

This book explores the biblical interpretation of the Ethiopian Orthodox Tewahido Church (EOTC). In doing so, it illuminates the interpretation of the Bible in a particular historical and cultural context and presents a compelling example of the contextual nature of biblical interpretation. Those who visit Ethiopia experience its unique

spirituality, which is significantly informed by the presence of the EOTC. The EOTC has existed from earliest years of the Christian church. It has also developed and maintained its own ecclesiastic tradition in the Ethiopian context and has its own distinctive way of reading the Bible. It is noteworthy, particularly in the African context, that it has its own commentaries on the Scriptures, which continue to serve as a vital tradition in the EOTC's interpretation of the Bible. This is

evident in the contemporary hermeneutics and sermons of EOTC preachers. In its comprehensive consideration of the EOTC's past and present, this book examines the interplay between tradition and context in biblical interpretation and contributes to current biblical scholarship.

Ethiopia is one of the world's oldest countries; its Rift Valley may be the location where the ancestors of humankind originated more than four million years ago. With a population of 67 million people today, it is the third most

populous country on the African continent after Nigeria and Egypt. It is the source of 86 percent of the water reaching the Aswan Dam in Egypt, most of it carried by the amazing Blue Nile. Ethiopia offers major historical sites such as the pre-Christian palace at Yeha, the stele and tombs of the old Kingdom of Axum, and the rock-carved churches of Lalibela. For anyone interested in Ethiopia, this historical dictionary, through its individual and carefully cross-referenced entries, captures the importance and

intrigue of this truly significant African nation. Historical Dictionary of Ethiopia appeals to all levels of readers, providing entries for each of Ethiopia's 85 ethnic groups and covering a broad range of cultural, political, and economic topics. Readers interested in the cultural aspects or who are planning to visit Ethiopia will find a wealth of entries on art, literature, handicrafts, music, dance, bird life, geography, and historic tourist sites. Practitioners in government and non-governmental organizations will

find entries on pressing economic, social, and political issues such as HIV/AIDS, female circumcision , debt, human rights, and the environment. The important historical role of missionaries and the combination of conflict and cooperation between Christians and Muslims in the region are also issues reviewed. And, finally, many of the entries highlight relations between Ethiopia and her neighbors-Eritrea, Somalia, Somaliland, Djibouti, Kenya, and Sudan. In the bibliography, considerable emphasis has

been placed on including both new and old materials covering all facets of Ethiopia, organized for easy identification by areas of major interest.

The book by Dr. Taddesse Tamrat is an important contribution. ... In fact, the author shows his full and precise knowledge of past literature on Ethiopia, and his critical analysis of historical events is well founded on the results of recent work; but also-and this is an important novelty-he had access to hagiographical and historical documents,

kept in Ethiopian monasteries, which had not previously been known to scholars. ...
- Professor Enrico Cerulli, in BSOAS, Vol. 37, 1972. Once in a long while, books are written that set the standard in their discipline. Taddesse Tamrat's Church and State has been just such a book, a classic in Ethiopian historiography, unsurpassed in its painstaking reconstruction of the medieval history of Ethiopia. Few historians have used the rich historical data of the *gadl* literature as exhaustively and as meticulously as

Taddesse has done, teasing out crucial information as only an Ethiopian versed in church traditions could do. Equally significant for the value of the book has been the blending of these Ethiopian traditional sources with the rich contemporary Arabic sources and the commentaries and analyses of such authorities as Carlo Conti Rossini. In short, what Taddesse has done through this masterly reconstruction is to blaze the trail that other Ethiopian historians have followed, a process that culminated in the

growth and ripening of professional Ethiopian historiography. - Professor Bahru Zewde is the author of A History of Modern Ethiopia Professor Taddesse Tamrat's magisterial historical work Church and State in Ethiopia, 1270-1527, documents the rise and expansion of a new dynasty in highland Christian Ethiopia and the simultaneous growth of Ethiopian monasticism as an intellectual and cultural force. Based upon a broad range of primary sources previously either unknown or not utilized, this book remains

the essential text for the history of the highland Christian state of Ethiopia during the period of its development as the dominant state in the Horn of Africa. This seminal work established the historical foundation for subsequent studies in the history of highland Ethiopia, including specialized cultural and historical analyses of theology, music and religious art. - Professor Marilyn E. Heldman is the author of African Zion: The Sacred Art of Ethiopia

Surrounded by steep escarpments to the

north, south and east, Ethiopia has always been geographically and culturally set apart. It has the longest archaeological record of any country in the world. Indeed, this precipitous mountain land was where the human race began. It is also home to an ancient church with a remarkable legacy. The Ethiopian Church forms the southern branch of historic Christianity. It is the only pre-colonial church in sub-Saharan Africa, originating in one of the earliest Christian kingdoms- with its king Ezana (supposedly descended

from the biblical Solomon) converting around 340 CE. Since then it has maintained its long Christian witness in a region dominated by Islam; today it has a membership of around forty million and is rapidly growing. Yet despite its importance, there has been no comprehensive study available in English of its theology and history. This is a large gap which this authoritative and engagingly written book seeks to fill. The Church of Ethiopia (or formally, the Ethiopian Orthodox Tewahedo Church) has a

recognized place in worldwide Christianity as one of five non-Chalcedonian Orthodox Churches. As Dr Binns shows, it has developed a distinctive approach which makes it different from all other churches. His book explains why this happened and how these special features have shaped the life of the Christian people of Ethiopia. He discusses the famous rock-hewn churches; the Ark of the Covenant (claimed by the Church and housed in Aksum); the medieval monastic tradition; relations with the Coptic

Church; co-existence with Islam; missionary activity; and the Church's venerable oral traditions, especially the discipline of gene—a kind of theological reflection couched in a unique style of improvised allegorical poetry. There is also a sustained exploration of how the Church has been forced to re-think its identity and mission as a result of political changes and upheaval following the overthrow of Haile Selassie (who ruled as Regent, 1916–1930, and then as Emperor, 1930–74) and beyond.

This work on the Ethiopian orthodox church's tradition
on the Holy Cross is a volume in which Ethiopic literature

on the Cross is presented together with an English translation. The sources include homilies and poetic hymns by ancient Greek and Ethiopian teachers. Ethiopian biblical commentaries are a corpus of ancient, traditional teaching that comment on all books of the Bible following a relatively uniform methodology. This Ethiopian tradition is an heir of the traditional branches of Antiochene and Alexandrian Eastern Christianity. The existence of these exegetical commentaries is practically unknown outside the Ethiopian Orthodox Church, whose mission has been to keep and faithfully transmit them from generation to generation. Most of the commentaries

still are in the form of privately owned parchment manuscripts. These have been handed down from masters to disciples until today. This volume presents a critical edition of nine manuscripts containing commentaries on prophet Micah. It also provides an English translation of the originals written in the Gezez and Amharic languages as well as a study of the literary form of these commentaries.

The Historical Dictionary of Ethiopia, Second Edition covers the history of Ethiopia through a chronology, an introductory essay, appendixes, and an extensive bibliography. The dictionary section has several hundred

cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. This book is an excellent access point for students, researchers, and anyone wanting to know more about Ethiopia.

Ephraim Isaac sketches the history of the Ethiopian Orthodox Tawahido Church and also that of Christianity as a whole in Ethiopia. As the reader will discover, not only are there strong Biblical Hebraic elements in the theology, political theory and liturgical calendar of the Ethiopian Church but there is also a strong influence from Beta Israel and Ethiopian Jews. Besides Jews and

Christians, there are also very large numbers of Muslims and various native beliefs in Ethiopia.

THE PRAYER OF THE VIRGIN MARY is one of the priceless treasures freed from the British Museum by Ras Seymour Mclean, the Book Liberator. It was one of thousands of items of gold, silver, jewels and holy books stolen after the sacking of Magdala Palace by British general Robert Napier in 1868, after which Emperor Teodros committed suicide rather than be taken prisoner. According to Ethiopian history, the Prayer is famous because of the many people who have claimed their prayers have been answered by its use. This

Special Edition makes copies accessible to those for whom Ras Seymour Mclean liberated it. All profits will go to the Kingston branch of the Ethiopian Orthodox Church.

"This book is the development of three Amharic works which I have translated and adapted to English, two books about the ancient monastery of Waldiba, and one longer article about the monastic tradition of the Ethiopian Orthodox Tewahedo Church. Three of them were written in Amharic and published some years ago. The current English book includes both the translation and some additional ideas. The main objective that drives me to this edition is the need to present the longstanding, ancient, properly preserved monastic tradition of our Mother Ethiopian Church for wider readers and to initiate

further research in the field."--Preface.

Religiosity is one aspect without which Ethiopian society cannot be fully understood. This book aims to map out the terrain of the discourse in religion-social change nexus in Ethiopian using the notion of covenant as an interpretive tool.

As in other African countries, the engagement of faith-based organizations (FBOs) in the development sector in Ethiopia is tremendous and manifold. FBOs are, however, still insufficiently integrated in the development discourse and often operate under the radar of international and multilateral donors. This can be to a large extent reasoned by the fact that very little empirical research has hitherto been undertaken to assess the impact of FBO activities in Ethiopia. Upon this background, this study contributes to the debate among practitioners and researchers on the actual and potential

contribution of FBOs to development in Ethiopia. This is exemplified by the work of the Ethiopian Kale Heywet Church (EKHC) in rural areas of southern Ethiopia in the thematic fields of schooling, ecological balance and food security. Cross-sectional and case study designs form the principal approaches used in the study; both quantitative and qualitative methods were used.

GEDLA ADAM: The Combat of Adam Against Satan; The [Ethiopic] Book of Adam and Eve, is also known as The Conflict of Adam and Eve with Satan is a Christian pseudepigraphical work found in Ge'ez. It was first translated from the Ge'ez Ethiopic version into German by August Dillmann. It was first translated into English by S. C. Malan from the German of Ernest Trumpp. The first half of Malan's translation is included as the "First Book of Adam and Eve" and the "Second Book of Adam and Eve" in The

Lost Books of the Bible and the Forgotten Books of Eden. The Books mentioned below were added by Malan to his English translation; the Ethiopic is divided into sections of varying length, each dealing with a different subject. Books 1 and 2 begin immediately after the expulsion from the Garden of Eden, and end with the testament and translation of Enoch. Great emphasis is placed in Book 1 on Adam's sorrow and helplessness in the world outside the garden.

The Holy Trinity was seen, Yahweh Elohim. In the year that king Uzziah died I saw also Yahweh sitting upon a throne, high and lifted up, and his train filled the temple. 2 Above it stood the seraphims: each one had six wings; with twain he covered his face, and with twain he covered his feet, and with twain he did fly. 3 And one cried unto another, and said, Holy, holy, holy, is Yahweh of hosts: the whole earth is full of his glory. 4 And the posts of the door moved at the voice of him that cried, and the house was filled with smoke. 5 Then said I, Woe is me! for I am undone; because I am a man of unclean lips, and I dwell

in the midst of a people of unclean lips: for mine eyes have seen the King, Yahweh of hosts. 6 Then flew one of the seraphims unto me, having a live coal in his hand, which he had taken with the tongs from off the altar: 7 And he laid it upon my mouth, and said, Lo, this hath touched thy lips; and thine iniquity is taken away, and thy sin purged. RECEIVED COMMUNION.

Ethiopia is an icon of freedom and indigenous Christianity across Africa due to its historic independence, ancient Christian identity and rich religious heritage. However, Ethiopia and its various Christian denominations have their own understandings of this identity and how these

communities relate to one another. In this detailed study, Dr Seblewengel Daniel explores the perception and identity of the Ethiopian Orthodox Church and evangelical church in Ethiopia and examines the relations between the two. Beginning with the earliest evangelical missionary engagement with the Orthodox church, Dr Daniel skilfully uses historical and theological frameworks to explain the dynamics at play when approaching the relations over two centuries between these two churches and their respective communities. Daniel ultimately emphasizes that what unites the Orthodox and evangelical church is greater than what

divides – namely an ancient faith in the triune God. This important study urges both sides to place the Bible at the centre, using it to understand their differences, and challenges them to take responsibility for past negative perceptions in order to move forward together in greater unity and mutual respect.

Chalcedonian, believing that Christ's human and divine natures combined into one nature which is both human and divine. Do Western and Ethiopian Orthodox Christians have the same Christology, but express it differently? If not, how are they different? How should evangelicals in Ethiopia express their understanding of Christ's deity and humanity so that they are clear, inoffensive and biblical? To answer these questions, one must understand historical, formal, linguistic and popular perspectives on the nature of Christ in the EOC. To do this, an ethnographic study of one Addis Ababa neighborhood was conducted to begin to understand popular

perspectives on the nature of Christ in the EOC. The findings suggest that there are some substantive differences between Chalcedonian and Ethiopian Orthodox perspectives on the nature of Christ. In speaking of Christ, evangelicals in Ethiopia should avoid referring to "two natures" while affirming his full deity and, especially, his full humanity. They should develop a fresh Christological creed for the Ethiopian context.

The boy who became Saint Yared grew up in the ancient kingdom of Axum. According to legend, he struggled as a student, just as this story shows, but eventually triumphed and went on to invent Ethiopia's system of musical notation. His work drew on local traditions and the church concept of the Holy Trinity, while his hymns had four parts based on the four

seasons of the year, winter, summer, spring, and autumn. Hundreds of years before European composers developed a seven-note system of writing music, Yared wrote music using dashes, curves, and dots to represent ten different notes.
