

# Extensive Air Showers High Energy Phenomena And Astrophysical Aspects A Tutorial Reference Manual And Data Book Astrophysics And Space Science Library

## **Extensive Air Showers - High Energy Phenomena and ...**

### **Extensive air showers and the physics of high energy ...**

Key to understanding extensive air showers is the modeling of hadronic multiparticle production at energies from the particle-production threshold up to  $10^{20}$  eV—far beyond the reach of man-made accelerators. In this article, we introduce the relation between extensive air showers and hadronic interactions at high energy.

Extensive air showers are a very unique phenomenon. In the more than six decades since their discovery by Auger et al. we have learned a great deal about these extremely energetic events and gained deep insights into high-energy phenomena, particle physics and astrophysics.

### **Extensive Air Showers High Energy**

## **Extensive Air Showers: High Energy Phenomena and ...**

Key to understanding extensive air showers is the modeling of hadronic multiparticle production at energies from the particle-production threshold up to  $10^{20}$  eV—far beyond the reach of man-made accelerators. In this article, we introduce the relation between extensive air showers and hadronic interactions at high energy.

## **Extensive Air Showers and Hadronic Interactions at High Energy**

**Abstract:** The discovery of extensive air showers by Rossi, Schmeiser, Bothe, Kolhörster and Auger at the end of the 1930s, facilitated by the coincidence technique of Bothe and Rossi, led to fundamental contributions in the field of cosmic ray physics and laid the foundation for high-energy particle physics.

### **[1207.4827] Extensive Air Showers and Ultra High-Energy ...**

Extensive air showers are still the only source of information on primary cosmic-rays and their interactions at energies above PeV. However, this information is hidden inside the multiplicative character of the cascading process.

### **Extensive air showers and the physics of high energy ...**

Other articles where Extensive air shower is discussed: cosmic ray: Very high-energy cosmic rays: ...be detected only through the extensive air showers (EASs) that they produce in the atmosphere. An EAS may consist of billions of secondaries including photons, electrons, muons, and some neutrons that arrive at ground level over areas of many square kilometres. Very high-energy primaries arrive ...

### **Extensive air showers and ultra high-energy cosmic rays: a ...**

An air shower is an extensive (many kilometres wide) cascade of ionized particles and electromagnetic radiation produced in the atmosphere when a primary cosmic ray (i.e. one of extraterrestrial origin) enters the atmosphere. When a particle, which could be a proton, a nucleus, an electron, a photon, or (rarely) a positron, strikes an atom's nucleus in the air it produces many energetic hadrons.
