How to torque down head gasket on F162 and F163

Continental Ignition Timing. One of the most common questions asked on our help line concerns the ignition timing on Continental F-162 and F-163 engines used on the Lincoln SA-200, SA-250, SA-300, and SA-400 welding machines. Since these engines turn no faster than 1800 RPM's, there is no need for automatic ignition advancement.

Continental Ignition Timing | Technical Manuals | Weldmart ...

I have an older caterpillar V40B forklift with a Continental F163 flathead engine in it (propane). It is a Towmotor Caterpillar aprox 1974-76? if I remember, will double check I am setting up to give it a tune up and valve adjustment. I have not done this on this machine since getting it a year or ...

Need help ign. timing 70's cat forklift

F163 Also, the F163 has thrust washers built into the center main bearing which eliminates the need for tedious setting of end play with spacers on the F162. One engine can be swapped for the other. The 66 would have a front assembly of three pieces whereas the 68 would have a one piece front panel.
