

## Farewell To The God

"In *The Other Greek*, Arthur Cooper offers a captivating and unorthodox introduction to the world of the Chinese script through the medium of poetry, explaining the structure, meaning and cultural significance of each character. Written nearly half a century ago, and now published posthumously, the book argues that the role of Chinese writing was analogous to the influence of Greek civilization on Western culture. Chinese is the Greek of the Far East, 'the other Greek'! Originally a cryptanalyst, Cooper uses his professional--and distinctly non-academic--training to analyse Chinese characters and points out a series of unacknowledged associations between them. Ultimately, he aims to initiate the reader with no prior knowledge of the language into Chinese writing and poetry"--

The Cajun coast of Louisiana is home to a way of life as unique, complex, and beautiful as the terrain itself. As award-winning travel writer Mike Tidwell journeys through the bayou, he introduces us to the food and the language, the shrimp fisherman, the Houma Indians, and the rich cultural history that makes it unlike any other place in the world. But seeing the skeletons of oak trees killed by the salinity of the groundwater, and whole cemeteries sinking into swampland and out of sight, Tidwell also explains why each introduction may be a farewell—as the storied Louisiana coast steadily erodes into the Gulf of Mexico. Part travelogue, part environmental expos é , *Bayou Farewell* is the richly evocative chronicle of the author's travels through a world that is vanishing before our eyes.

Featuring a previously published author introduction, a personal foreword by his son and a new introduction by his grandson, a definitive edition of the lauded World War I classic collects all 39 of the Nobel Prize-winning author's alternate endings to offer new insights into his creative process. Reprint.

The Second Media Age

The Other Greek

For almost two decades, China has claimed that its expanding economy benefits Europe, stimulating European growth, exports, and employment. But the reality is not so clear-cut. Whilst individual companies may have profited from China's economic rise, unbalanced trade with China has actually cost Europe over 1.4 trillion euros in the last ten years as well as undermining its political influence. China's monumental infrastructural project, the Belt And Road Initiative or New Silk Road as it has come to be known - is set to make this situation even worse. *The Silk Road Trap* is the first book to expose just how risky this uneven partnership is for Europe. In it, leading expert on Asian affairs Jonathan Holslag, argues that Europe must reduce its reliance on China and work on building a stronger and more sustainable European economic model. By revealing the political aspirations and economic strategy behind the new Silk Road, he lays out its implications for specific European industries, from steel over aircraft to robots. Holslag, though critical of China, does not, however, make the case for confrontational, Trumpian protectionism. Instead, he posits that the new Silk Road need not ensnare Europe; it offers the continent a unique opportunity to transition from a future "made in China" to one that is "made in Europe".

This book examines the implications of new communication technologies in the light of the most recent work in social and cultural theory and argues that new developments in electronic media, such as the Internet and Virtual Reality, justify the designation of a "second media age".

There is hope and healing for those who have experienced religious abuse. Michael Winandy went from a hate filled Street Preacher to a Son secure in Father Gods love. From radical moments to quiet whispers, this is a story of encounter. It's a journey of pain and joy experiencing the heart of a good God, one who does not love but is love itself.

This book challenges both conservative religion and fundamentalist atheism (and will probably upset adherents of both), offering a secular spirituality that can be embraced by people of differing faith traditions and none. Drawing on his ministry as a Christian priest and psychotherapist, Chris Scott holds that religion is often bad for people, and rejects the belief that it can offer us objective truth about God. In *Goodbye to God* he advances a spirituality that makes humbler claims on us -- to be true to our experience and open to the mystery at the heart of life. This book stands in the tradition of a 'way of unknowing' which has a long pedigree in Christian and other world spiritualities. Brother Samuel SSF, Guardian Hilfield Friary I commend this highly readable and deeply insightful book to all church-going Christians of every tradition, and to all non-church-going people (lapsed, agnostic or atheist) who believe in the human potential for goodness and creativity. Chris Scott's straight-talking account of spirituality clearly comes from a place of profound personal experience and conviction. This important little book resonates with authenticity and deserves as wide a readership as possible. Rev Dr Paul Edmondson, Head of Research, The Shakespeare Birthplace Trust, Spiritual Director and Instructor for the Coventry Diocese *Goodbye to Godis*, I discovered, a book challenging its readers not to faith,

nor to doubt, nor to disbelief, but to honesty and freedom. The spirituality it sets before us and dares us to pursue 'transcends religions, beliefs, dogmas, creeds, scientific proofs, scepticism and polarity'. Its pages are meant to bring together, off the street as it were, anyone and everyone without a spiritual home and yet alive with longing for a spiritual life... No matter where you find yourself in what Kierkegaard called 'the stages on life's way', there is something here in this book for you - challenge, charm, heart, humour, courage, understanding, insight, reassurance, companionship. It is a gift for which I thank the author. Robert Emmet Meagher, Professor of Humanities, Hampshire College, Amherst, Massachusetts"

For more than twenty years, Charles Templeton was a major figure in the church in Canada and the United States. During the 1950s, he and Billy Graham were the two most successful exponents of mass evangelism in North America. Templeton spoke nightly to stadium crowds of up to thirty thousand people. However, increasing doubts about the validity of the Old Testament and the teachings of the Christian church finally brought about a crisis in his faith and in 1957 he resigned from the ministry. In *Farewell to God*, Templeton speaks out about his reasons for the abandonment of his faith. In straightforward language, Templeton deals with such subjects as the Creation fable, racial prejudice in the Bible, the identity of Jesus of Nazareth, Jesus' alienation from his family, the second-class status of women in the church, the mystery of evil, the illusion that prayer works, why there is suffering and death, and the loss of faith in God. He concludes with a positive personal statement: " I Believe. "

The American-born author describes her family's experiences and impressions when they were forced to relocate to a camp for the Japanese in Owens Valley, California, called Manzanar, during World War II, detailing how she, among others, survived in a place of oppression, confusion, and humiliation. Reissue.

What would you want to say if you knew death was close? This book is about a woman in the final stages of cancer. This is her eighth book. She takes you on an amazing journey that can only be written by this very special woman. She doesn't want pity; she wants you to know her thoughts and feelings. If you have had cancer, have this disease or if you know someone who has had it or has it, buy this book.

Take the step to learn what this extraordinary woman has to say. Learn and understand that courage and strength can be a big part of a life. A life can be about love, butterflies, purple skies and a lavender moon. It is also about faith and knowing who you are. Joree is a poet and all is possible through poetry.

It was reported that a doctoral student at Princeton once asked Albert Einstein, "What is there left in the world for original dissertation research?" He replied by saying, "Find out about prayer. Somebody must find out about prayer." Since Einstein's day, a great deal has been written on the topic of prayer in general. However, relatively little has been written about prayer in John's Farewell Discourse in particular. Therefore, this analysis not only seeks to understand the relationship between Johannine and Jewish, Greco-Roman, and Christian prayer traditions, but also seeks to discern the unique function and application of prayer as it is prescribed in the Farewell Discourse.

Life is full of labels that limit, but God has a new name He longs for you to hear - a name that boldly declares freedom from your past and hope for your future. Join Esther Fleece Allen, bestselling author of *No More Faking Fine*, in this profound exploration of your God-given identity that no label can limit and no circumstance can shake. Too often, our identity gets tangled up with our circumstances, and suddenly, the truth of who we are is colored by our relationship status, our job title, the shame of our past, or what others say about us. People might pin toxic, untrue labels on your back. Life might knock you down. And you might even wrongly label yourself. But God never does. Our God-given identity is the truest thing about us, and God spends a lot of time in the Bible telling us who we are. It's time to take Him at His word. God's names for you are not post-it-note provisions; they are names to be studied, taken to heart, and believed, all in the journey of becoming your truest self just as He created you to be. Let Your New Name be your first step in this journey of a lifetime.

In the 1950s, a series of dams was proposed along the Brazos River in north-central Texas. For John Graves, this project meant that if the stream's regimen was thus changed, the beautiful and sometimes brutal surrounding countryside would also change, as would the lives of the people whose rugged ancestors had eked out an existence there. Graves therefore decided to visit that stretch of the river, which he had known intimately as a youth.

*Goodbye to a River* is his account of that farewell canoe voyage. As he braves rapids and fatigue and the fickle autumn weather, he muses upon old blood feuds of the region and violent skirmishes with native tribes, and retells wild stories of courage and cowardice and deceit that shaped both the river's people and the land during frontier times and later. Nearly half a century after its initial publication, *Goodbye to a River* is a true American classic, a vivid narrative about an exciting journey and a powerful tribute to a vanishing way of life and its ever-changing natural environment.

*Farewell, Godspeed* is a remarkable collection of eulogies for some of the most notable figures of our time, delivered by the people who knew them best.

In the words used to eulogize the great and celebrated men and women of the world—sometimes reverential, sometimes funny, always poignant—we come as close as perhaps we ever will to seeing the warm humanity beneath their public personas. Cyrus M. Copeland has gathered some of the greatest of these writings about artists, scientists, authors, public servants, entertainers, and others who have captured our attention by making the world a better, or at least a livelier, place. Here is Andy Warhol's close friend describing Warhol's hidden spirituality. Albert Einstein's assistant recounting his humanism. Edward Kennedy remembering with a brother's tenderness the life of Jacqueline Kennedy Onassis. Larry McMurtry's lively and loving tribute to Irving "Swifty" Lazar. And Robert Bernstein, longtime publisher and friend of Dr. Seuss, memorializing him with special, never-before-published verse. Also included are the eulogies of the Challenger astronauts by President Ronald Reagan; Charles Schulz by Cathy Guisewite (creator of the comic strip Cathy); Bette Davis by James Woods; Bob Fosse by Neil Simon; Lucille Ball by Diane Sawyer; Martin Luther King Jr. by Benjamin E. Mays; David O. Selznick by Truman Capote; Karl Marx by Friedrich Engels; and Gianni Versace by Madonna. In these moving and personal tributes we see at last the vulnerabilities and nuances of character that are often hidden from the spotlight, and the true personalities behind the names we remember.

The Rich Life and Tragic Death of Louisiana's Cajun Coast

The master of American fiction returns to the territory of his beloved classic, *Dandelion Wine*—a sequel 50 years in the making. Some summers refuse to end . . . October 1st, the end of summer. The air is still warm, but fall is in the air. Thirteen-year-old Douglas Spaulding, his younger brother Tom, and their friends do their best to take advantage of these last warm days, rampaging through the ravine, tormenting the girls . . . and declaring war on the old men who run Green Town, IL. For the boys know that Colonel Quartermain and his cohorts want nothing more than to force them to put away their wild ways, to settle down, to grow up. If only, the boys believe, they could stop the clock atop the courthouse building. Then, surely, they could hold onto the last days of summer . . . and their youth. But the old men were young once, too. And Quartermain, crusty old guardian of the school board and town curfew, is bent on teaching the boys a lesson. What he doesn't know is that before the last leaf turns, the boys will give him a gift: they will teach him the importance of not being afraid of letting go.

We know Jesus the Savior, but have we met Jesus, Prince of Peace? When did we accept vengeance as an acceptable part of the Christian life? How did violence and power seep into our understanding of faith and grace? For those troubled by this trend toward the sword, perhaps there is a better way. What if the message of Jesus differs radically from the drumbeats of war we hear all around us? Using his own journey from war crier to peacemaker and his in-depth study of peace in the scriptures, author and pastor Brian Zahnd reintroduces us to the gospel of Peace.

*Farewell to the God of Plague* reassesses the celebrated Maoist health care model through the lens of Mao's famous campaign against snail fever. Using newly available archives, Miriam Gross documents how economic, political, and cultural realities led to grassroots resistance. Nonetheless, the campaign triumphed, but not because of its touted mass-prevention campaign. Instead, success came from its unacknowledged treatment arm, carried out jointly by banished urban doctors and rural educated youth. More broadly, the author reconsiders the relationship between science and political control during the ostensibly antiscientific Maoist era, discovering the important role of "grassroots science" in regime legitimation and Party control in rural areas.

The Account to God

*Farewell, My Lovely* is a classic novel by Raymond Chandler, the master of hard-boiled crime. Eight years ago Moose Malloy and cute little redhead Velma were getting married - until someone framed Malloy for armed robbery. Now his stretch is up and he wants Velma back. PI Philip Marlow meets Malloy one hot day in Hollywood and, out of the generosity of his jaded heart, agrees to help him. Dragged from one smoky bar to another, Marlowe's search for Velma turns up plenty of dangerous gangsters with a nasty habit

of shooting first and talking later. And soon what started as a search for a missing person becomes a matter of life and death . . . 'Anything Chandler writes about grips the mind from the first sentence' Daily Telegraph 'One of the greatest crime writers, who set standards others still try to attain' Sunday Times 'Chandler is an original stylist, creator of a character as immortal as Sherlock Holmes' Anthony Burgess Best-known as the creator of the original private eye, Philip Marlowe, Raymond Chandler was born in Chicago in 1888 and died in 1959. Many of his books have been adapted for the screen, and he is widely regarded as one of the very greatest writers of detective fiction. His books include The Big Sleep, The Little Sister, Farewell, My Lovely, The Long Good-bye, The Lady in the Lake, Playback, Killer in the Rain, The High Window and Trouble is My Business.

Goodbye Is Never Easy, but God Can Make It Better When Quinn the Owl makes a new friend, a firefly named Blink, she is filled with joy. But one night, Quinn wakes up to find her friend has disappeared in a flash. "Momma, why didn't God make Blink stay with me? Didn't he know how much I loved him?" "God doesn't always stop bad things from happening, Quinn. But He does promise that He will always be with you, and He will never stop being your friend." Beautifully illustrated and thoughtfully written, Quinn Says Goodbye is designed for children dealing with different kinds of loss, whether it be death of a pet or a family member, or simply the loss of a favorite toy. Remind little ones that although people and things might not be in their life forever, God will never leave them.

Goodbye to a River

Bayou Farewell

In this dark farce of a novel, set in an old-fashioned Central European spa town, eight characters are swept up in an accelerating dance: a pretty nurse and her repairman boyfriend; an oddball gynecologist; a rich American (at once saint and Don Juan); a popular trumpeter and his beautiful, obsessively jealous wife; an disillusioned former political prisoner about to leave his country and his young woman ward. Perhaps the most brilliantly plotted and sheer entertaining of Milan Kundera's novels, Farewell Waltz poses the most serious questions with a blasphemous lightness that makes us see that the modern world has deprived us even of the right to tragedy. Written in Bohemia in 1969-70, this book was first published (in 1976) in France under the title *La valse aux adieux* (Farewell Waltz), and later in thirty-four other countries. This beautiful new translation, made from the French text prepared by the novelist himself, fully reflects his own tone and intentions. As such it offers an opportunity for both the discovery and the rediscovery of one of the very best of a great writer's works.

While we acknowledge that all expressions of liberation theology are not identical, we must protest very strongly against the false divisions that some make: between black theology in South Africa and black theology in the United States, between black theology and African theology, and between black theology and Latin American liberation theology. But moving away from the illusioned universality of western theology to the contextuality of liberation theology is a risky business; one that cannot be done innocently. In the search for theological and human authenticity in its own situation, black theology does not stand alone. It is but one expression of this search going on within many different contexts. Until now, the Christian church had chosen to move through history with a bland kind of innocence, hiding the painful truths of oppression behind a facade of myths and real or imagined anxieties. This is no longer possible. The oppressed who believe in God, the Father of Jesus Christ, no longer want to believe in the myths created to subjugate them. It is no longer possible to innocently accept history "as it happens," silently hoping that God would take the responsibility for human failure. The theology of liberation spells out this realization. For the Christian church it constitutes, in no uncertain terms, farewell to innocence. Chris Hedges's profound and unsettling examination of America in crisis is "an exceedingly...provocative book, certain to arouse controversy, but offering a point of view that needs to be heard" (Booklist), about how bitter hopelessness and malaise have resulted in a culture of sadism and hate. America, says Pulitzer Prize-winning reporter Chris Hedges, is convulsed by an array of pathologies that have arisen out of profound hopelessness, a bitter despair, and a civil society that has ceased to function. The opioid crisis; the retreat into gambling to cope with economic distress; the pornification of culture; the rise of magical thinking; the celebration of sadism, hate, and plagues of suicides are the physical manifestations of a society that is being ravaged by corporate pillage and a failed democracy. As our society unravels, we also face global upheaval caused by catastrophic climate change. All these ills presage a frightening reconfiguration of the nation and the planet. Donald Trump rode this disenchantment to power. In his "forceful and

direct" (Publishers Weekly) *America: The Farewell Tour*, Hedges argues that neither political party, now captured by corporate power, addresses the systemic problem. Until our corporate coup d'état is reversed these diseases will grow and ravage the country. "With sharply observed detail, Hedges writes a requiem for the American dream" (Kirkus Reviews) and seeks to jolt us out of our complacency while there is still time.
